**Subject:** Websites Downtime issues - New Relic

Dear Abhilash,

As per the New Relic, Websites downtime is frequently happening. Some time it is more than 250 minutes. More or less in all the regions downtime is happening frequently.

Kindly let us know the issues why we are getting downtime frequently and it is not same for all regions.

To Discuss about this, Dr. Srinubabu sir asked for a meeting.  
Please let us know the available time today.

Thanks & Regards,  
**Bhaskara Satya Prasad,**
