**Importance & Scope:**

Nutraceuticals-2015 provides a unique forum for the publication of innovative research on the development of alternative sustainable technologies. With a wide general appeal, Nutraceuticals-2015 publishes urgent communications and high quality research papers as well as review articles. The scope of Nutraceuticals is based on, but not limited to, the definition proposed. The benefits of Nutraceuticals in medicine lies in the Increased Confidence in Effectiveness and Quality of products, Increased awareness among public, Improved market conditions for nutraceutical products and increased awareness in healthcare industry.

The forum of Scientists, students and researchers from all corners of the globe, come together to discuss future science. Each session of the meeting will be included with expert lectures, poster and discussions, join us to design sustainable processes, innovations by which and how these strategies drive new policies, advances the business and human health protection. We are glad to invite you on behalf of organizing committee to join us, where you are the decision maker for future.

**Why Philadelphia?**

Philadelphia is the largest city in the Commonwealth of Pennsylvania, the second largest city on the East Coast of the United States, and the fifth-most-populous city in the United States. It is located in the Northeastern United States along the Delaware and Schuylkill rivers, and it is the only consolidated city-county in Pennsylvania. Philadelphia is the economic and cultural center of the Delaware Valley, home to over 6 million people and the country's sixth-largest metropolitan area.

**Why to attend??**
