

4th International Conference and Exhibition on Pharmacovigilance & Clinical Trials

Date & Venue: August 10-12, 2015 London, UK

(Theme: Reviving Strategies for Safer Therapeutics in Healthcare System)

About the Conference:

Pharmacovigilance and clinical trials 2015 welcomes attendees, presenters, and exhibitors from all over the world to London, UK. We are delighted to invite you all to attend and register for 4th International Conference and Exhibition on Pharmacovigilance & Clinical Trials to be held during August 10-12, 2015 in London, UK.

The organizing committee is gearing up for an exciting and informative conference program including plenary lectures, symposia, workshops on a variety of topics, poster presentations and various programs for participants from all over the world. We invite you to join us at the Pharmacovigilance-2015

where you will be sure to have a meaningful experience with scholars from around the world. All members of the Pharmacovigilance and clinical trials-2015

organizing committee look forward to meeting you in London, UK.

Importance & Scope:

Pharmacovigilance and Clinical Trails-2015 to bring together leading academic scientists, researchers and research scholars to exchange and share their experiences and research results about all aspects of Pharmacovigilance and Clinical Trails. It also provides the chance for researchers, practitioners and educators to present and discuss the most recent innovations, trends, and concerns, practical challenges encountered and the solutions adopted in the fields of Pharmacovigilance and Clinical Trails-2015

Pharmacovigilance and Clinical Trails-2015 is an international platform for presenting research and exchanging ideas about it and thus, contributes to the dissemination of knowledge in Pharmacovigilance and Clinical Trails for the benefit of both the academia and business. Pharmacovigilance and Clinical Trails-2015 is where the future of pharma industries. Pharmacovigilance and Clinical Trails-2015 is where academic scientists, researchers and research scholars go to gain perspective on the latest platforms.

Why London?

UK proves to be perfect location for production, research and sales of world-class pharmaceuticals. UK ranks sixth in the pharmaceutical marketing and is home for GlaxoSmithKline and AstraZeneca, much of it spurred by tourism and the pharmaceutical industries. Many local landmarks were restored; the main attractions are the Tower of London, Kew Gardens, the site comprising the Palace of Westminster, Westminster Abbey and St Margaret's Church. Other famous landmarks include Buckingham Palace, the London Eye, Piccadilly Circus, St Paul's Cathedral, Tower Bridge, Trafalgar Square and The Shard. The London Underground is the oldest underground railway network in the world and several 5-star hotels to accommodate business travellers. 95% of the UK's population is monolingual English speakers.

The United Kingdom of Great Britain and Northern Ireland commonly known as the United Kingdom (UK), Great Britain or simply Britain. Queen Elizabeth II is the head of state. UK is a sovereign state located off the north-western coast of continental

Europe, The UK's form of government is a constitutional monarchy with a parliamentary system and its capital city is London.

The United Kingdom consists of four countries: England, Scotland, Wales and Northern Ireland. The United Kingdom is a developed country and has the world's sixth-largest economy by nominal GDP.

The UK has been a permanent member of the United Nations Security Council since its first session in 1946. it is also a member of the Commonwealth of Nations, the Council of Europe, the G7, the G8, the G20, NATO, the Organization for Economic Co-operation and Development (OECD) and the World Trade Organization (WTO).

Conference Highlights:

- Concept of Pharmacovigilance and its Significance and scope
- Pre-Clinical and Clinical Trials
- Clinical Trials on Drugs used in Various Disorders, Pharmacotherapy and Pharmacotherapeutics
- Pharmacokinetics and Pharmacodynamics
- Pharmacy Practices and its Challenges
- Pharmacovigilance and Risk Management
- Clinical Research and Statistics
- Strategies for Growth in Pharma Environment
- Good Pharmacovigilance Practice and Pharmacoepidemiology
- Case Report in Clinical Trials
- Clinical Pharmacology and Biopharmaceutic

Why to attend???

Meet Your Target Market With members from around the world focused on learning about Pharmacovigilance and Clinical Trails, this is your single best opportunity to reach the largest assemblage of participants from the pharmacovigilance associations. Conduct demonstrations, distribute information, meet with current and potential customers, make a splash with a new product line, and receive name recognition at this 3-day event. World-renowned speakers, the most recent techniques, tactics, and the newest updates Pharmacovigilance and Clinical Trails are hallmarks of this conference.

A Unique Opportunity for Advertisers and Sponsors at this International event:

Major pharmacovigilance associations around globe

- CIOMS - Council for International Organizations of Medical Sciences
- DIA - Drug Information Association
- DSRU - Drug Safety Research Unit
- EC - European Commission - Pharmacovigilance
- ENCEPP - European Network of Centres for Pharmacoepidemiology and Pharmacovigilance
- EMA - European Medicines Agency
- FIP - International Pharmaceutical Federation
- EC - European Commission - Pharmacovigilance

- EMA - European Medicines Agency
- PIPA - The Pharmaceutical Information and Pharmacovigilance Association
- EFPIA - European Federation of Pharmaceutical Industries and Associations

Target Audience:

Directors/Managers & Business Intelligence Experts, Research scholars, scientists, academic scientists, Solution Providers, Professors, Associate professors, Training institutes, research institutes and Students from Academia in scientific community.

Target Audience:

Industry 60%

Academia 30%

Others 10%
