

5th International Conference on Earth Science & Climate Change

July 25-27, 2016 Bangkok, Thailand

Pre-conference Workshop on Global Geoecological Systems for Humanity Survival at the Epoch of Cosmoplanetary and Climatic Changes December 25, 2015 ISRICA, NOVOSIBIRSK, Russia

Organizer **Alexander Trofimov** ISRICA, Russia

Pre-Conference Program

| 09:00-09:30 | Registration | |
|------------------|--|--|
| 10:00-10:10 | Introduction | |
| | Alexander Trofimov, ISRICA, Russia | |
| 10:10-10:50 | Title: Self-transformation of the Earth in spatio-temporal coordinates of the Solar System | |
| | Alexey Dmitriev, Inst. Geology and Mineralogy SD RAS, Russia | |
| 10:50-11:10 | Title: Some aspects of correlation of dynamics of geophysical factors and morbidity of the population | |
| | Ildar Mingazov, St. Center of Hygiene, Russia | |
| 11:10-11:30 | Title: Empirical evidence of space weather effects on nonrandom directed mutations of DNA and the intellect | |
| | Alexey Kutmin, International University biophysics and medicine, Russia | |
| Panel Disscusion | | |
| | Networking & Refreshment: 11:30-11:50 | |
| 11:50-12:20 | Title: Global geoecological system of human life support at the epoch of cosmoplanetary and climatic changes | |
| | Alexander Trofimov, ISRICA, Russia | |
| 12:20-12:40 | Title: The phenomenon of change in the fixed DNA concentration in water solution under light- holographic influence | |
| | Danil Serdyukov, Novosibirsk St. University, Russia | |
| 12:40-13:00 | Title: The light-water holographic impacts at the system of geoecological human security | |
| | Taisiya Kuznetsova, ISRICA, Apsara Ltd., Russia | |

| 13:00-13:20 | Title: Some features of blood system reacting to changing geoecological environment Evgeniya Sevostyanova, SCCEM SD RAS, Russia | |
|--|---|--|
| 10.00.10.40 | Title: The human cardio-vascular system as an acceptor of changes in helio-geophysical impacts | |
| 13:20-13:40 | Olga Oseeva, St. Inst. of Blood Circulation Pathology, Russia | |
| 13:40-14:00 | Title: Veda Pulse- Intellectual System for monitoring of bio-geo and heliophysical coupling | |
| 13:40-14:00 | Oleg Sorokin, Biokvant Ltd, Russia | |
| | Title: Impact of holograms to water structure ,detected through the method of water energy spectrum | |
| 14:00-14:20 | Anton Antonov, South-west University, Bulgaria | |
| | Panel Disscusion | |
| | Lunch and Group Photo: 14:20-15:20 | |
| 15:20-15:40 | Title: The role of micro-aquaplants into biogeocoenosis and ecosystems of the Earth with using them as medical and food additions for humanity survival | |
| | Ilya Kotlovker , Geobiology Ltd, Russia | |
| 15:40-16:00 | Title: Magnetoanomalies and geopathogenic zones at the periods of cosmoplanetary changes | |
| 10.10-10.00 | Victor Fefelov, Biolon Ltd, Russia | |
| 16:00-16:20 | Title: Remote impact of mobile phone base stations, wind generators on living beings through a system of geological faults. Possible ways to neutralize biopathogenic radiation | |
| | Anatoly Pavlenko, Open Int. University of Human Development, Ukraine | |
| 16:20-16:35 | Title: The role of Geoecology as a foremost Earth science, at the periods of heliogeophysical changes | |
| | Ivan Pavlov, Int. Sci-Res Inst. of Heliogeoecology, Bulgaria | |
| 16:35-16:45 | Title: The phenomenon of gender effects under the influence of space factors | |
| | Tatyana Soboleva, St.University Eng. Technologies, Russia | |
| | | |
| | Panel Disscusion | |
| | Networking & Refreshment: 16:45– 17:05 | |
| 17:05-17:20 | Networking & Refreshment: 16:45– 17:05 Title: Geocosmic controls of speech activity | |
| 17:05-17:20 | Networking & Refreshment: 16:45– 17:05 Title: Geocosmic controls of speech activity Olga Volchek, St-Petersburg Inst of Humanities, Russia | |
| 17:05-17:20 17:20-17:35 | Networking & Refreshment: 16:45– 17:05 Title: Geocosmic controls of speech activity Olga Volchek, St-Petersburg Inst of Humanities, Russia Title: Cosmic weather and state of human cardio-vascular system | |
| | Networking & Refreshment: 16:45– 17:05 Title: Geocosmic controls of speech activity Olga Volchek, St-Petersburg Inst of Humanities, Russia Title: Cosmic weather and state of human cardio-vascular system Sergey Samsonov, Inst. cosmophysics and astronomy SD RAS, Russia | |
| | Networking & Refreshment: 16:45– 17:05 Title: Geocosmic controls of speech activity Olga Volchek, St-Petersburg Inst of Humanities, Russia Title: Cosmic weather and state of human cardio-vascular system Sergey Samsonov, Inst. cosmophysics and astronomy SD RAS, Russia Title: Assessment of bio climate of the northwest regions at various scenarios of climate change | |
| 17:20-17:35 | Networking & Refreshment: 16:45– 17:05 Title: Geocosmic controls of speech activity Olga Volchek, St-Petersburg Inst of Humanities, Russia Title: Cosmic weather and state of human cardio-vascular system Sergey Samsonov, Inst. cosmophysics and astronomy SD RAS, Russia Title: Assessment of bio climate of the northwest regions at various scenarios of climate change Marina Trubina and Ekaterina Semova Russian St. Hydrometeorological University, StPetersburg, Russia | |
| 17:20-17:35 | Networking & Refreshment: 16:45– 17:05 Title: Geocosmic controls of speech activity Olga Volchek, St-Petersburg Inst of Humanities, Russia Title: Cosmic weather and state of human cardio-vascular system Sergey Samsonov, Inst. cosmophysics and astronomy SD RAS, Russia Title: Assessment of bio climate of the northwest regions at various scenarios of climate change | |
| 17:20-17:35 17:35-17:50 17:50-18:05 | Networking & Refreshment: 16:45– 17:05 Title: Geocosmic controls of speech activity Olga Volchek, St-Petersburg Inst of Humanities, Russia Title: Cosmic weather and state of human cardio-vascular system Sergey Samsonov, Inst. cosmophysics and astronomy SD RAS, Russia Title: Assessment of bio climate of the northwest regions at various scenarios of climate change Marina Trubina and Ekaterina Semova Russian St. Hydrometeorological University, StPetersburg, Russia Title: Non stable angina pectoris and cosmic weather | |
| 17:20-17:35 17:35-17:50 | Networking & Refreshment: 16:45– 17:05 Title: Geocosmic controls of speech activity Olga Volchek, St-Petersburg Inst of Humanities, Russia Title: Cosmic weather and state of human cardio-vascular system Sergey Samsonov, Inst. cosmophysics and astronomy SD RAS, Russia Title: Assessment of bio climate of the northwest regions at various scenarios of climate change Marina Trubina and Ekaterina Semova Russian St. Hydrometeorological University, StPetersburg, Russia Title: Non stable angina pectoris and cosmic weather Svetlana Parschina, St. Medical University, Russia | |
| 17:20-17:35 17:35-17:50 17:50-18:05 18:05-18:20 | Networking & Refreshment: 16:45–17:05 Title: Geocosmic controls of speech activity Olga Volchek, St-Petersburg Inst of Humanities, Russia Title: Cosmic weather and state of human cardio-vascular system Sergey Samsonov, Inst. cosmophysics and astronomy SD RAS, Russia Title: Assessment of bio climate of the northwest regions at various scenarios of climate change Marina Trubina and Ekaterina Semova Russian St. Hydrometeorological University, StPetersburg, Russia Title: Non stable angina pectoris and cosmic weather Svetlana Parschina, St. Medical University, Russia Title: The influence of emotional experience on humanity survival at the epoch of cosmoplanetary changes | |
| 17:20-17:35 17:35-17:50 17:50-18:05 | Networking & Refreshment: 16:45– 17:05 Title: Geocosmic controls of speech activity Olga Volchek, St-Petersburg Inst of Humanities, Russia Title: Cosmic weather and state of human cardio-vascular system Sergey Samsonov, Inst. cosmophysics and astronomy SD RAS, Russia Title: Assessment of bio climate of the northwest regions at various scenarios of climate change Marina Trubina and Ekaterina Semova Russian St. Hydrometeorological University, StPetersburg, Russia Title: Non stable angina pectoris and cosmic weather Svetlana Parschina, St. Medical University, Russia Title: The influence of emotional experience on humanity survival at the epoch of cosmoplanetary changes Alexander Zakharov, Moscow Center of Noospheric Health, Moscow, Russia | |
| 17:20-17:35 17:35-17:50 17:50-18:05 18:05-18:20 | Networking & Refreshment: 16:45–17:05 Title: Geocosmic controls of speech activity Olga Volchek, St-Petersburg Inst of Humanities, Russia Title: Cosmic weather and state of human cardio-vascular system Sergey Samsonov, Inst. cosmophysics and astronomy SD RAS, Russia Title: Assessment of bio climate of the northwest regions at various scenarios of climate change Marina Trubina and Ekaterina Semova Russian St. Hydrometeorological University, StPetersburg, Russia Title: Non stable angina pectoris and cosmic weather Svetlana Parschina, St. Medical University, Russia Title: The influence of emotional experience on humanity survival at the epoch of cosmoplanetary changes Alexander Zakharov, Moscow Center of Noospheric Health, Moscow, Russia Title: Water and Life at the epoch of climatic changes | |
| 17:20-17:35 17:35-17:50 17:50-18:05 18:05-18:20 | Networking & Refreshment: 16:45– 17:05 Title: Geocosmic controls of speech activity Olga Volchek, St-Petersburg Inst of Humanities, Russia Title: Cosmic weather and state of human cardio-vascular system Sergey Samsonov, Inst. cosmophysics and astronomy SD RAS, Russia Title: Assessment of bio climate of the northwest regions at various scenarios of climate change Marina Trubina and Ekaterina Semova Russian St. Hydrometeorological University, StPetersburg, Russia Title: Non stable angina pectoris and cosmic weather Svetlana Parschina, St. Medical University, Russia Title: The influence of emotional experience on humanity survival at the epoch of cosmoplanetary changes Alexander Zakharov, Moscow Center of Noospheric Health, Moscow, Russia Title: Water and Life at the epoch of climatic changes Vincenzo Valenzi, CIFA, Italy | |
| 17:20-17:35 17:35-17:50 17:50-18:05 18:05-18:20 | Networking & Refreshment: 16:45– 17:05 Title: Geocosmic controls of speech activity Olga Volchek, St-Petersburg Inst of Humanities, Russia Title: Cosmic weather and state of human cardio-vascular system Sergey Samsonov, Inst. cosmophysics and astronomy SD RAS, Russia Title: Assessment of bio climate of the northwest regions at various scenarios of climate change Marina Trubina and Ekaterina Semova Russian St. Hydrometeorological University, StPetersburg, Russia Title: Non stable angina pectoris and cosmic weather Svetlana Parschina, St. Medical University, Russia Title: The influence of emotional experience on humanity survival at the epoch of cosmoplanetary changes Alexander Zakharov, Moscow Center of Noospheric Health, Moscow, Russia Title: Water and Life at the epoch of climatic changes Vincenzo Valenzi, CIFA, Italy | |
| 17:20-17:35 17:35-17:50 17:50-18:05 18:05-18:20 | Networking & Refreshment: 16:45– 17:05 Title: Geocosmic controls of speech activity Olga Volchek, St-Petersburg Inst of Humanities, Russia Title: Cosmic weather and state of human cardio-vascular system Sergey Samsonov, Inst. cosmophysics and astronomy SD RAS, Russia Title: Assessment of bio climate of the northwest regions at various scenarios of climate change Marina Trubina and Ekaterina Semova Russian St. Hydrometeorological University, StPetersburg, Russia Title: Non stable angina pectoris and cosmic weather Svetlana Parschina, St. Medical University, Russia Title: The influence of emotional experience on humanity survival at the epoch of cosmoplanetary changes Alexander Zakharov, Moscow Center of Noospheric Health, Moscow, Russia Title: Water and Life at the epoch of climatic changes Vincenzo Valenzi, CIFA, Italy Networking & Refreshment: 18:35-18:45 Concluding Discussion N.Tolokonskay, A.Ivanov, E.Krasnoshekovay, E.Il'ichey, N.Goncharova, M.Pichigin, G. Kovalevskay, | |
