About Malaysia

We can start with GEOGRAPHY of Malaysia...is an archipelago, or string of islands, on the southern east of Asia. There are two distinct parts to this country being Peninsular Malaysia to the west and East Malaysia to the east. NATURE of Malaysia...a rainforest zone below the equatorial belt that teems with the wonders of the nature. Malaysia also has a wealth of limestone formations, mangrove swamps, coral reefs and many caves to discover....The Malaysian are famous for their willingness to work very hard. Children are taught to show respect for others, especially parents and bosses. They learn to do what's best for their family and worry less about their own needs. GOVERNMENT & ECONOMY MALAYSIA.... The Capital city of Malaysia also as the hub to discover Asia in general, Garden city, Thunder storm city, a city with great food, and generally low cost of living among world capital.. And finally HISTORY OF MALAYSIA... In the Peninsula, the Malayan Communist Party took up arms against the British. ... On 31 August 1963, the British territories in North Borneo and Singapore were granted independence and formed Malaysia with the peninsular states on 16 September 1963.
