Program Announcement

Accommodation

A large number of rooms have been reserved. Discounted room rates for Antibodies 2017 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by Public transportation.

Exhibition and Sponsorship

An Exhibition will be held concurrently with the Congress. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the field of Pharmacy.

About Las Vegas

Las Vegas, officially the City of Las Vegas, is a city in the United States. It is the most populous city in the state of Nevada, USA. Las Vegas is an internationally renowned major resort city known primarily for gambling, shopping, fine dining, and nightlife and is the leading financial, commercial, and cultural center for Southern Nevada. The city is one of the top three leading destinations in the United States for conventions, business, and meetings. Las Vegas is situated within Clark County in a basin on the floor of the Mojave Desert and is surrounded by mountain ranges on all sides. Much of the landscape is rocky and arid with desert vegetation and wildlife. It can be subjected to torrential flash floods, although much has been done to mitigate the effects of flash floods through improved drainage systems. Las Vegas' climate is a subtropical, hot desert climate, typical of the Mojave Desert in which it lies. The city enjoys abundant sunshine year-round; it has an average of about 310 sunny days per year. It is virtually free of tornadoes and ice storms. Dew points in the summer are exceptionally low, ranging from 40.6 °F (4.8 °C) to 44.0 °F (6.7 °C). The summer months of June through September are very hot and mostly dry, with a July daily average temperature of 92.5 °F (33.6 °C), while nighttime temperatures often remain above 80 °F (27 °C). There are an average of 134 days of 90 °F (32 °C)+ highs, and 74 days of 100 °F (38 °C)+ highs, with most of the days in July and August exceeding the latter benchmark, and only occasionally failing to reach the former. Humidity is very low, often under 10%. Las Vegas' winters are short and the season is generally mild. December, the coolest month, averages 47.7 °F (8.7 °C). The mountains surrounding Las Vegas accumulate snow during the winter, but snow is rare in the Las Vegas Valley itself. The major attractions in Las Vegas are the casinos and the hotels, although in recent years other new attractions have begun to emerge. Most casinos in the downtown area are located on the Fremont Street Experience, The Stratosphere being one of the exceptions. Fremont East, adjacent to the Fremont Street Experience, was granted variances to allow bars to be closer together, similar to the Gaslamp Quarter of San Diego, the goal being to attract a different demographic than the Strip attracts..

Venue

Las Vegas, Nevada, USA

Important Dates

Abstract submission opens August 01, 2016

Registration opens August 15, 2016

Early bird registration: December 30, 2016

On spot registration: November 08, 2017
