Aquaculture
Summit 2018

Program Announcement

Accommodation

A large number of rooms have been reserved. Discounted room rates for Aquaculture Summit 2017 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by public transportation.

Exhibition and Sponsorship

An Exhibition will be held simultaneously with the Conference. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new developments in the field of Aquaculture & Fisheries.

About Japan

Japan, “The Land of the Rising Sun”, is an archipelagic nation comprising of about 6852 islands on the eastern edge of Asia. Out of these islands, Honshu, Hokkaido, Kyushu and Shikoku are the four main and largest islands.

People first came to Japan about 30,000 years ago. The first society, called the Jomon culture, arose about 12,000 years ago. At the time, the main islands were connected to Siberia and Korea by bridges of dry land, so people crossed on foot. Most people descended from the Mongols while others from the Ainu which explains Japan’s homogeneous population.

Japan offers its visitors to explore a wide range of breathtaking sights of majestic volcanoes, magnificent coastlines and vast forests inhabited by exotic species of wildlife. Japan’s coastline is one of the world’s longest and there are also plenty of beaches providing swimming, snorkeling and a host of other recreational opportunities.

About 127 million people inhabit the islands of Japan. It boasts of an extremely dedicated work culture where the amount of time employees work determines their opportunities for advancement and development. A truly timeless place, Japan witnesses the fusion of ancient traditions with modern life amidst continually updating technological development which makes it an incredibly fascinating country to visit.

Japan is a country which is described as a constitutional monarchy but the Emperor has little power, however they are still revered as a symbol of the country’s traditions and unity. Today, Japan has one of the world’s strongest economies owing to its people’s hard work, dedication and motivation.

Venue

Osaka, Japan
