About Organizers

Conference Series LLC is one of the leading Open Access publishers and organizers of international scientific conferences and events around the world. Conference Series LLC has so far organized 3000+ Global Events with over 600+ Conferences, 1200+ Symposia and 1200+ Workshops on Medical, Pharma, Engineering, Science, Technology and Business across the World and is managing 700+ peer-reviewed open access journals in basic science, health, and technology. Conference Series LLC is also in association with more than 1000 International scientific and technological societies and associations.

Objective

Autoimmunity 2016 has the goal to fill the prevailing gaps in the transformation of this science of hope to promptly serve solutions to all in the need. Autoimmunity 2016 will have an anticipated participation of 150-200 delegates from around the world to discuss the conference goal.

Scientific Sessions

Autoimmunity 2016 will encompass recent researches and findings on Antibodies: Engineering and Therapeutics, Pathophysiology and Autoimmunity, The Cytokine and Current Research on Autoimmune Diseases, Autoimmunity in Women, and Bioinformatic tools in Autoimmunity, Inherited Autoimmunity. Autoimmunity 2016 will be a great platform for research scientists and young researchers to share their current findings in this field of applied science. The major scientific sessions in Autoimmunity 2016 will focus on the latest and exciting innovations in prominent areas of the Challenges on Autoimmunity research.

Potential Participants

As such, Autoimmunity 2016 is a remarkable event designed for Directors, Researchers, Professors, and Scholars from both academia and industry. Autoimmunity 2016 invites participants from all leading universities, clinical research institutions and diagnostic companies to share their research experiences on all aspects of this rapidly expanding field and there by, providing a showcase of the latest research.
Conference Series LLC welcomes you to attend the International Conference on Autoimmunity during October 13-14, 2016 at Manchester, UK.

Manchester is a city, and metropolitan borough of Greater Manchester, in North West England, with a population of 514,417 in 2013. It lies within the United Kingdom’s second most populous urban area, with a population of 2.55 million and third-most populous metropolitan area. Manchester is fringed by the Cheshire Plain to the south, the Pennines to the north and east and an arc of towns with which it forms a continuous conurbation. The local authority is Manchester City Council.

Manchester is the perfect place to indulge a love of culture. Don’t miss the year-round programme of special exhibitions of art, photography and design at The Lowry or catch a play or musical. And at the magnificent Royal Exchange Theatre you’ll find live music events, free exhibitions, poetry readings as well as top-class theatre.

Manchester has a thriving theatre, opera and dance scene, and is home to a number of large performance venues, including the Manchester Opera House, which feature large-scale touring shows and West End productions; the Palace Theatre; and the Royal Exchange Theatre in Manchester’s former cotton exchange. The Royal Exchange is the largest theatre in the round space in the UK.

For 11 million people living within 50 miles of the City of Manchester, it is the place where they come to work, or to shop or to visit the many attractions and entertainments which only a large dynamic city such as this could hope to offer.

We look forward to seeing you in Manchester!
