

International Conference on
**Bacteriology and
Infectious Disease**

May 21-22,
2018
Osaka, Japan

Theme:
Exploring Innovative
Research in
Bacteriology

Dear Colleagues,

Conference Series is delighted to welcome you to Osaka, Japan for the prestigious International Conference on Bacteriology and Infectious Disease. Bacteriology Congress 2018 will focus on the theme "Exploring Innovative Research in Bacteriology". We are confident that you will enjoy the Scientific Program of this upcoming Conference.

We look forward to see you at Osaka, Japan.

With Regards,

Bacteriology Congress 2018 Operating Committee
Conference Series Conferences

Editorial Board Members of Supporting Journals:

Fernando Villalta

Meharry Medical College, USA

Shihua Wang

Fujian Agriculture and Forestry University
China

Xuejie Yu

University of Texas Medical Branch, USA

Rahul Mittal

University of Southern California, USA

Halil Hasar

Firat University, Turkey

Vasco Azevedo

Federal University of Minas Gerais, Brazil

Accommodation

A large number of rooms have been reserved. Discounted room rates for Bacteriology Congress 2018 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by Public transportation.

Exhibition and Sponsorship

An Exhibition will be held concurrently with the Conference. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the fields of Bacteriology.

About Osaka

Osaka is the second largest metropolitan area in Japan and serves a major economic hub. Historically a merchant city, Osaka has also been known as the "Nation's Kitchen". With a population of 2.5 million, Osaka is Japan's third largest and second most important city. It has been the economic powerhouse of the Kansai region for many centuries. The city's west side has the main port as well as a tourist destination with attractions such as Kyocera Dome, Universal Studios Japan, Osaka aquarium, Minami, Osaka castle, Umeda sky building and the Tempozan Harbour Village. Osaka is known for its food, both in Japan and abroad. Author Michael Booth and food critic François Simon of Le Figaro have both suggested that Osaka is the food capital of the world. Osaka's culinary prevalence is the result of a location that has provided access to high quality ingredients, a high population of merchants, and close proximity to the ocean and waterway trade. In recent years, Osaka has started to garner more attention from foreigners with the increased popularity of cooking and dining in popular culture. The National Museum of Art (NMAO) is a subterranean Japanese and international art museum, housing mainly collections from the post-war era and regularly welcoming temporary exhibitions. Osaka Science Museum is in a five storied building next to the National Museum of Art, with a planetarium and an OMNIMAX theatre. The Museum of Oriental Ceramics holds more than 2,000 pieces of ceramics, from China, Korea, Japan and Vietnam, featuring displays of some of their Korean celadon under natural light.

Important Dates

Abstract submission opens: July 21, 2017

Registration opens: July 21, 2017

Early bird registration: August 24, 2017

On spot registration: May 21, 2018

Venue

Osaka, Japan
