**Data Mining
2017**

Dear Colleagues,

Conference series LLC is delighted to welcome you to Paris, France for the prestigious **4th International Conference on Big Data Analysis and Data Mining**. Data Mining 2017 will focus on **“Future Technologies for Knowledge Discoveries in Data”**. We are confident that you will enjoy the Scientific Program of this upcoming Conference.

With Regards,
Data Mining 2017 Operating Committee
Conference Series LLC Conferences

Editorial Board Members of Supporting Journals:

Ralph Coolidge Huntsinger
California State University, USA

Simon Lin
Northwestern University, USA

Bozinovski Stevo
South Carolina State University, USA

Sriram Neelamegham
State University of New York, USA

Guo Jiang
California State University, USA

Anil Kumar Thurimella
Harman International, German

Chandrasekhar Kambhampati
University of Hull, UK

Evangelos Kranakis
Carleton University, Canada

Graciela Perera
Youngstown State University, USA

Idris Ismaila
Federal University of Technology, Minna

J. Todd McDonald
University of South Alabama, USA

Simon Daefler
Mount Sinai School of Medicine, USA

Jiaxu Li
Mississippi State University, USA

Tianfu Wu
UT Southwestern Medical Center, USA

Firas H Kobeissy
University of Florida, USA

Heinz-Ulrich (Ulli) Gunter Weier
Lawrence Berkeley National Laboratory, USA

Aris Christou
University of Maryland, USA

Ramesh K Agarwal
Washington University, USA

TC Mike Chung
Pennsylvania State University, USA

Xinhua Wu
Monash University, Australia

James Michael Rigsbee
North Carolina State University, USA

Data Mining 2017

Program Announcement

Accommodation

A large number of rooms have been reserved. Discounted room rates for Data Mining 2017 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress centre can be easily reached by public transportation.

Exhibition and Sponsorship

An Exhibition will be held concurrently with the Conference. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the fields of Big Data.

About Paris

The Paris Commune was a radical communist and progressive government that ruled Paris from 18 March to 28 May 1871. Taking after the annihilation of Emperor Napoleon III in September 1870, the French Second Empire quickly broken down. In its stead climbed a Third Republic at war with Prussia, which laid attack to Paris for four months. A hotbed of average workers radicalism, France's capital was basically safeguarded amid this time by the frequently politicized and radical troops of the National Guard rather than standard Army troops. In February 1871 Adolphe Thiers, the new CEO of the French national government, marked a truce with Prussia that incapacitated the Army yet not the National Guard.

Officers of the Commune's National Guard executed two French armed force commanders; and the Commune declined to acknowledge the power of the French government. The customary French Army stifled the Commune amid "La semaine sanglante" ("The Bloody Week") starting on 21 May 1871. Banters over the approaches and result of the Commune had critical impact on the thoughts of Karl Marx, who depicted it for instance of the "fascism of the working class".

Venue

Paris, France

Important Dates

Abstract submission opens: September 01, 2016

Registration opens: September 10, 2016

Early bird registration: November 30, 2016

Registration Deadline: February 25, 2017

On spot registration: July 11, 2017

Conference Secretariat

2360 Corporate Circle, Suite 400 Henderson, NV 89074-7722, USA Ph: +1-888-843-8169

Fax: +1-650-618-1417, Toll free: +1-800-216-6499
