Program Announcement

Accommodation

A large number of rooms have been reserved. Discounted room rates for Bioscience2017 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by public transportation.

Exhibition and Sponsorship

An Exhibition will be held concurrently with the Congress. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the fields of Bioscience.

About London

London is one of the largest and most diverse science regions in Europe. Roughly 200,000 people from around the world teach research, work and study here. Approximately 17 percent of all students come from abroad, most of them from China, Russia and the USA. Many cooperative programs link London's institutes of higher education with partner institutes around the world. London is a city of science at the heart of Europe – a city whose history of scientific excellence stems from its many important research institutions and its long track record of scientific breakthroughs. London has numerous modern Technology Centers. Their science-oriented infrastructure makes them attractive locations for young, technology-oriented companies.
