

World Congress on

# Biotherapeutics and Bioanalytical Techniques

September 11-12, 2017 Dallas, USA

Theme: Advances and Innovations in Development of Biotherapeutics

Dear Colleagues,

Conference Series LLC is delighted to welcome you to Dallas, USA for the prestigious World Congress on Biotherapeutics and Bioanalytical Techniques. Biotherapeutics 2017 will focus on “*Advances and Innovations in Development of Biotherapeutics*”. We are confident that you will enjoy the Scientific Program of this upcoming Conference.

We look forward to see you at Dallas, USA.

With Regards,

Biotherapeutics 2017 Operating Committee

Conference Series LLC

## Editorial Board Members of Supporting Journals:

**Marc D Donohue**

Johns Hopkins University, USA

**Kota V Ramana**

The University of Texas Medical Branch, USA

**Sarath Chandra Janga**

University of Illinois, USA

**John HT Luong**

University College Cork, Canada

**Isaac Yi Kim**

Robert Wood Johnson Medical School, USA

**David J Weber**

University of Maryland, USA

**Kenneth Maiese**

New Jersey Health Sciences University, USA

**Yoshimi NIWANO**

Tohoku University, Japan

**Zvi Kelman**

University of Maryland, USA

**Toshio Narahashi**

Northwestern University, USA

**Om Prakash**

Kansas State University, USA

**Xinyang Zhao**

University of Alabama, USA

**Zhen Yang**

Merck Pharmaceuticals, USA

**Zhong Xing Jiang**

Wuhan University, China

**Lei Wang**

Queen's University Belfast, UK

# Program Announcement

## Venue

Embassy Suites by Hilton - Dallas Park Central 13131  
North Central Expressway Dallas, TX 75287, USA

## Important Dates

Abstract submission opens: July 26, 2016

Registration opens: July 26, 2016

Early bird registration: August 14, 2017

On spot registration: September 11, 2017

## Accommodation

A large number of rooms have been reserved. Discounted room rates for Biotherapeutics 2017 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by public transportation.

## Exhibition and Sponsorship

An Exhibition will be held concurrently with the event. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the fields of Biotherapeutics and its advances.

## About Dallas, USA

Dallas is a major city in Texas and is the largest urban center of the fourth most populous (1.258 million) metropolitan area in the United States. Dallas is the county seat of Dallas County. The city has a total area of 385.8 square miles. The city's prominence arose from its historical importance as a center for the oil and cotton industries, and its position along numerous railroad lines.

Dallas developed as a strong industrial and financial center, and a major inland port, due to the convergence of major railroad lines, interstate highways, and the construction of Dallas/Fort Worth International Airport, one of the largest and busiest airports in the world. Dallas was rated as a "beta plus" world city by the Globalization and World Cities Study Group & Network, and was 14th in world rankings of GDP by the Organization for Economic Co-operation and Development.

Dallas, like many other cities, was founded along a river. The city was founded at the location of a "white rock crossing" of the Trinity River, where it was easier for wagons to cross the river in the days before ferries or bridges. The lake and surrounding park is a popular destination for boaters, rowers, joggers, and bikers, as well as visitors seeking peaceful respite from the city at the 66-acre Dallas Arboretum and Botanical Garden, located on the lake's eastern shore. White Rock Creek feeds into White Rock Lake, and then exits on to the Trinity River southeast of downtown Dallas. Trails along White Rock Creek are part of the extensive Dallas County Trails System. The city is well known for its diverse architecture, festival, contemporary arts, and a superior quality of living.
