

5th World Congress on

Chemical Engineering and Catalysis

August 27-28
2018
Tokyo, Japan

Theme:
Innovation Integration
in the field of Chemical
Engineering

Dear Colleagues,

Conference Series is delighted to welcome you to Tokyo, Japan for the prestigious 5th World Congress on Chemical Engineering and Catalysis. Catalysis 2018 will focus on the theme "Innovation Integration in the field of Chemical Engineering and Catalysis". We are confident that you will enjoy the Scientific Program of this upcoming Conference.

We look forward to see you at Tokyo, Japan.

With Regards,
Catalysis 2018
Conference Series Conferences

Editorial Board Members of Supporting Journals:

Timir Datta

University of South Carolina, USA

Ihsan A Shehadi

University of Sharjah, UAE

Alireza Heidari

California South University, USA

Xincun Dou

Xinjiang Technical Institute of Physics & Chemistry, China

K K Pant

INDIAN Institute of technology, India

Yoshihiro Mochimaru

Tokyo Institute of Technology, Japan

Michael G Richmond

University of North Texas, USA

Joseph D Smith

Missouri University of Science and Technology, USA

Chong Soo Lee

Pohang University of Science and Technology, Korea

Junwang Tang

University College London, UK

Jianwen Jiang

National University of Singapore, Singapore

Fawzi Banat

The Petroleum Institute, UAE

Program Announcement

Accommodation

A large number of rooms have been reserved. Discounted room rates for Catalysis 2018 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by Public transportation.

Exhibition and Sponsorship

An Exhibition will be held concurrently with the Congress. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the field of Material Science.

About Tokyo, Japan

Tokyo is Japan's capital and the world's most populous metropolis. It is also one of Japan's 47 prefectures, consisting of 23 central city wards and multiple cities, towns and villages west of the city center. The Izu and Ogasawara Islands are also part of Tokyo. Prior to 1868, Tokyo was known as Edo. A small castle town in the 16th century, Edo became Japan's political centre in 1603 when Tokugawa Ieyasu established his feudal government there. A few decades later, Edo had grown into one of the world's most populous cities. With the Meiji Restoration of 1868, the emperor and capital moved from Kyoto to Edo, which was renamed Tokyo ("Eastern Capital"). Large parts of Tokyo were destroyed in the Great Kanto Earthquake of 1923 and in the air raids of 1945.

Today, Tokyo offers a seemingly unlimited choice of shopping, entertainment, culture and dining to its visitors. The city's history can be appreciated in districts such as Asakusa, and in many excellent museums, historic temples and gardens.

Important Dates

Abstract submission opens: August 01, 2017

Registration opens: August 01, 2017

Early bird registration: October 23, 2017

On spot registration: August 27, 2018

Venue

Tokyo, Japan

Abstract Submission

<http://catalysis.chemicalengineeringconference.com/abstract-submission.php>

Note: All the relevant abstracts will be accepted and published in respective conference proceedings.

Registration
