Conference Series LLC

Organizing Committee Members

Jaime Senabre

University of Valencia, Spain

Nils-Axel Morner

Stockholm University, Sweden

Christopher Bryant

University of Guelph, Canada

Jose Pablo Paredes Sanchez

Universidad de Oviedo, Spain

Ildelfons Pla

Universitat de Lleida, Spain

Pierluigi Siano

University of Salerno, Italy

Miklas Scholz

The University of Salford, UK

Daniele De Wrachien

State University of Milan, Italy

Wang Tujian

Nanjing University, China

Guoqian Chen

Peking University, China

Baike Xi

University of North Dakota, USA

Gordon Huang

University of Regina, Canada

Edwin H. W. CHAN

The Hong Kong Polytechnic University, Hong Kong

Annemarie Bastrup-Birk

European Environment Agency, Denmark

Gordon Huang

University of Regina, Canada

Alvina Reihan

Tallinn University of Technology, Estonia

**Climate
Change 2017**

Program Announcement

Accommodation

A large number of rooms have been reserved. Discounted room rates for Climate Change 2017 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by public transportation.

Exhibition and Sponsorship

An Exhibition will be held concurrently with the event. The networking and refreshment breaks will be located adjacent to the exhibition booths. We will offer sufficient time for our exhibitors to interact with all the attendees of the conference during multiple breaks, cocktails, and networking sessions. We will promote exhibitors through verbal recognition during the opening and closing ceremony.

About Rome

Rome is the capital of Italy; it is also the country's largest and most populated comune and fourth-most populous city in the European Union. The Metropolitan City of Rome has a population of 4.3 million residents. The city is located in the central-western portion of the Italian Peninsula, within Lazio (Latium), along the shores of Tiber River. Vatican City is an independent country within the city boundaries of Rome, the only existing example of a country within a city: for this reason Rome has been often defined as capital of two states. Roman mythology dates the founding of Rome at only around 753 BC; the site has been inhabited for much longer, making it one of the oldest continuously occupied cities in Europe. It is referred to as "Roma Aeterna" (The Eternal City) and "Caput Mundi" (Capital of the World), two central notions in ancient Roman culture. One of the most important city, Rome, was founded in 753 B.C. by Romulus.

The Apennine Mountains form its "backbone" and stretch from north to south, with the Tiber River cutting through them in central Italy. Along the northern border, the Alps serve as a natural boundary. The three major bodies of water surrounding Italy are the Adriatic Sea, the Ionian Sea, and the Mediterranean Sea. Ancient Rome is characterized by the seven hills and the Tiber River. The Tiber River flows from the Apennine Mountain, to the Tyrrhenian Sea.

Venue

*Holiday Inn Rome Aurelia
Via Aurelia, Km 8.400 00165
Rome, Italy*

Important Dates

*Abstract Submission Opens: December 01, 2016
Registration Opens: December 08, 2016
On spot Registration: October 19, 2017*
