About Atlanta, USA

Atlanta is the capital of and the most populous city in the US state of Georgia, with an estimated 2013 population of 447,841. Atlanta is the ninth largest metropolitan area in the United States and the fifth largest metropolitan area in Southern United States, just behind Dallas, Houston, Washington, DC and Miami. Atlanta is the county seat of Fulton County, and a small portion of the city extends eastward into DeKalb County.

Atlanta was established in 1837 at the intersection of two railroad lines, and the city rose from the ashes of the Civil War to become a national center of commerce. Atlanta is considered an “alpha-” or “world city”, ranking 45th among world cities and 8th in the nation with a gross domestic product of \$270 billion

Atlanta encompasses 132.4 square miles (342.9 km²), of which 131.7 square miles (341.1 km²) is land and 0.7 square miles (1.8 km²) is water. The city is situated among the foothills of the Appalachian Mountains, and at 1,050 feet (320 m) above mean sea level, Atlanta has the highest elevation of major cities east of the Mississippi River.

Encompassing \$304 billion, the Atlanta metropolitan area is the eighth-largest economy in the country and 17th-largest in the world. Corporate operations comprise a large portion of the Atlanta’s economy, with the city serving as the regional, national, or global headquarters for many corporations. Atlanta contains the country’s third largest concentration of Fortune 500 companies, and the city is the global headquarters of corporations such as The Coca-Cola Company, The Home Depot, Delta Air Lines, AT&T Mobility, UPS, and Newell-Rubbermaid. Over 75 percent of Fortune 1000 companies conduct business operations in the Atlanta metropolitan area, and the region hosts offices of about 1,250 multinational corporations. Many corporations are drawn to Atlanta on account of the city’s educated workforce; as of 2010, nearly 43% of adults in the city of Atlanta have college degrees, compared to 27% in the nation as a whole.
