9th International Conference on Alzheimer’s Disease & Dementia

Rome, Italy
October 16-18, 2017
dementia@neuroconferences.com
Invitation

Dear Attendees,

We are glad to announce the 9th International Conference on Alzheimer’s Disease & Dementia to be held in Rome, Italy from October 16-18, 2017 organized by Conference Series LLC in collaboration with generous support and cooperation from enthusiastic academicians and editorial Board Members.

We cordially invite all the participants who are interested in sharing their knowledge and research in the arena of Alzheimer’s Disease & Dementia. Dementia 2017 anticipates more than 300 participants around the globe with thought provoking Keynote lectures, Oral and Poster presentations, Symposium and workshops. The attending delegates include Editorial Board Members of related Journals. This Conference will provide a forum for exchange of ideas and authoritative views by leading scientists as well as business leaders and investors in this exciting field. Outstanding keynote speakers and well known leading scientists and experts from around the globe will be expected to share their knowledge.

It is a broad audience gathering for exploring various neurological disorders and their prevention and treatments. This is an excellent opportunity for the delegates from Universities and Institutes to interact with the world class Scientists.

Intending participants can confirm their participation by registering for the conference along with their colleagues and can avail discounts on their registration.

The main theme of the conference is “An Insight into Advanced Research and Diagnostic Approaches in Alzheimer’s Disease and Dementia”.

We have the pleasure to welcome you for the participation to our exciting conference. Let us meet in one of the most glorious cities in the world.

Sincerely,

Dementia 2017

Organizing Committee
Our International Open Access Journals

- **700+ Leading-edge** Peer Reviewed Open Access Journals
- **21 Day** Rapid Review Process
- **50000+** Editorial Board Team, **35000+** Reviewers team
- **30 Million Readers** and High Visibility
- **1000+ Scientific Associations** Collaborations
- **100000+** Likes
- Publication immediately after acceptance
- Quality and Quick editorial, review processing

Salient Features

- Easy to Submit and Review Systems
- High Quality and Fast Publishing Guaranteed
- Unbiased, quality-oriented, and transparent reviews
- Truly impartial recognition of the best papers
- Feedback on the impact of every article
- Enhanced feature: Audio version of published paper
- Digital articles to share and explore
- Sharing option: Social networking enabled
- Authors, reviewers and editors are provided with scientific credits
- User friendly/feasible website articles translations across more than 50 world languages

Our International Scientific Conferences

- More than **3000 Conferences** happening across the globe
- Conferences organized in Medical, Pharma, Engineering, Science, Technology and Business.
- CME/CPD Accredited Conferences fostering professional and Personal development
- Continuum of education through organized scientific program
- Renowned speakers and scientists representing from 40 countries
- Highly Interactive sessions and Panel Discussions
- B2B Meetings offers perfect platform for Global Networking

Salient Features

- Robust on-line publicity for all the speakers and organizing committee members
- Career Guidance Workshops for students and early career researchers
- Accepted Abstracts will be published in various indexed journals
- Accepted abstracts will be labeled with a Digital Object Identification Number (DOI) provided by Cross Ref
- Creation of speakers and abstracts pages in Google
- Opportunity to publish full Manu Scripts in our Open Access Journals

Special Issues: All accepted abstracts will be published irrespective Conference Series LLC Journals

Each abstract will be provided with digital Object Identifier by crossref
About Conference

Dementia 2017 Conference website is attracting 100000+ Neurologists, Alzheimer’s Disease & Dementia Researchers, online visitors ranging from Academicians and Business professionals, who are working in this field. This unique opportunity that we extend to our speakers and attendees is not being offered by any other conference organizers. Through this the abstracts and research profiles of our speakers and organizing committee members getting global visibility which is an additional feature that you would be receiving in addition to networking opportunities before, during and after the conference.

How Conference Series Conferences differs from others?

- 3000+ Conferences across the globe in 30+ countries all through the year
- Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
- Participation by Stalwarts from various international societies
- Internationally renowned speakers and scientists representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking

Dementia 2017 salient features

- Meet Academia and Industry visionaries to get inspired
- Expand your knowledge and find solutions to problems
- Knowledge, Benchmarking and Networking offered at one place
- Forge connections and for global networking
- Highly Organized and Structured Scientific programs
- Poster presentations and world class exhibitions
- Meet with new vendors and suppliers

About Conference

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for “Continuing Medical Education” Continuing Medical Education (ACCME) through the joint providership of PeerPoint Medical Education Institute and Conference Series, LLC.

The live format of the conference will be accredited with CME and CPD Credits.

All Dementia 2016 Conference participants were awarded with 5.25 AMA PRA Category 1 Credits™ PeerPoint Medical Education Institute is accredited by the ACCME to provide continuing medical education for physicians. PeerPoint Medical Education Institute designates the live format for this educational activity for AMA PRA Category 1 Credits™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Alzheimer’s Disease & Dementia

Alzheimer’s disease is an irreversible, progressive brain disorder that slowly destroys memory and thinking skills, and eventually the ability to carry out the simplest tasks. In most people with Alzheimer’s, symptoms first appear in their mid-60s. Alzheimer’s disease is currently ranked as the sixth leading cause of death, but recent estimates indicate that the disorder may rank third, just behind heart disease and cancer, as a cause of death for older people.

Alzheimer’s is the most common cause of dementia among older adults. Dementia is the loss of cognitive functioning thinking, remembering, and reasoning and behavioural abilities to such an extent that it interferes with a person’s daily life and activities. Dementia ranges in severity from the mildest stage, when it is just beginning to affect a person’s functioning, to the most severe stage, when the person must depend completely on others for basic activities of daily living.

Neurological disorders are one of the greatest threats to public health. More than 600 known neurological disorders are there which affects our nervous system severely but still for most of the diseases treatment options are very limited and research is going on. According to a global study conducted by World Health Organization 8 out of 10 disorders are neurologic problems in which 3 are highest disability classes. Americans in the age group of 55-75 have second-highest neurological death rates in world.

In Europe, almost 165 million people or 38% of the total population suffering from a brain disorder with only 1 among the three receiving the medication or therapy, Cost burden of these and neurological is of $550 billion per year. According to the 2015 statistics death rate is 7.2 million per year due to neurological disorders.

About Conference

Purpose

9th International Conference on Alzheimer’s Disease & Dementia is an arena for interdisciplinary exchange among professionals in the fields of Neurology, Alzheimer’s Disease and Dementia.

Dementia 2017 conference is mainly focused on the new scientific and technical advances in the field of Neurology, Neurological disorders and Alzheimer’s Disease & Dementia.

Goals

• The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration. The goals of the conference is to provide a transformative professional development experience through

• Bringing together the world’s scientific experts to catalyze and advance scientific knowledge about Alzheimer’s Disease & Dementia present the most recent research findings, and promote and enhance scientific collaborations around the world

• Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address regional, national and local responses to Elderly Population around the world and overcome barriers that limit access to care and services.

Objectives

After participating in this meeting, attendees should be able to

• Discuss emerging issues Alzheimer’s Disease & Dementia

• Discuss and apply recent research findings related to Alzheimer’s Disease & Dementia

• Reflect on the place of critical distance Alzheimer’s Disease & Dementia
About Conference

Who should attend
9th International Conference on Alzheimer’s Disease & Dementia is exclusively designed for experts, researchers, scholars and students from all areas of Basic science, Chemical engineering, Earth and planetary sciences, Ecology, Environmental science, Environmental toxicology, Bioremediation and Public health, Occupational and industrial safety.

About hosting organization
Conference Series is the world’s leading specialist in organizing Academic, Scientific and Business conferences, meetings, symposiums and exhibitions in different verticals and horizontal like Medical, Pharma, Engineering, Science, Technology and Business to promote scientific research. Every year we host more than 3000+ global events inclusive of 1000+ Conferences 1000+ Symposiums 1000+ Workshops in USA, Europe, Middle East and Asia with the generous support and cooperation from our 30000+ Editorial Board Members, 1000+ Scientific Societies. All the conference proceedings are published in the special issues of our 700+ Open Access International Journals with the DOI provided by crossref

Major sessions

- Alzheimer’s disease and Dementia
- Vascular Dementia
- Traumatic brain injury
- Dementia with Lewy Bodies
- Causes and Prevention
- Managing Dementia
- Diagnosis and Symptoms
- Imaging Techniques

- Pathophysiology and Disease Mechanisms
- Geriatrics and Cognitive Disorder
- Amyloid Protein in Dementia
- Care Practice and Awareness
- Therapeutic Targets
- Alzheimer’s clinical trials and studies
- Animal Models and Translational Medicine

**About Conference**

**Why to Attend??**

**Dementia 2017** is the leading meeting dedicated to Neurologists, Alzheimer’s disease and Dementia experts, Neurology researchers with the theme “An Insight into Advanced Research and Diagnostic Approaches in Alzheimer’s Disease and Dementia”

Goal of Dementia 2017 is to deliver an outstanding program for exchange of ideas and authoritative views by leading scientists which covers the entire spectrum of research in neurological disorders and share the cross-cultural experiences of various treatment procedures.

We strive to make Dementia 2017 a success, with your support and high quality talks from both Neurology and Neuroscience communities. During the conference, we assure you that you will experience world class facilities and hospitality at the conference.

9th International Conference on Alzheimer’s Disease & Dementia is a unique forum to bring together worldwide distinguished academics in the field of Neuroscience, Neurology and Neurosurgery, Brain researchers, public health professionals, scientists, academic scientists, industry researchers, scholars to exchange about state of the art research and technologies. The Conference will feature many exciting academic programs including multiple panels, workshops, affinity group lunches, paper presentations, and scientific sessions by reputed neurologists and neurosurgeons from all over the country.

Expertise Outlook on Neuroscience Conferences

Boris Johnson, Mayor of London, UK
As Mayor of London I am delighted to welcome you to the Neurology Conferences organized by Conference Series LLC.

Andrew V Schally, Nobel Prize in Physiology/Medicine for 1977
Conferences like this one may help to speed up the development of effective therapies for neurodegenerative diseases like Alzheimer’s disease.

Arvid Carlsson, Nobel Prize in Physiology/Medicine for 2000
I wish to welcome all researchers from the fields of basic neuroscience, neurology, and neurosurgery to contribute with your valuable expertise, and to stimulate interdisciplinary endeavor.

Marie Trad, Quintiles, France
The meeting was very interesting and I met with very nice people.

John K. Grandy, North Country Urgent Care, USA
I had a great time at the conference this year and it was run much more efficiently than last year in Chicago. Thank you for the opportunity to participate.

Norman S. Miller, Michigan State University, USA
The priority aim of this Conferences will also be to deepen our understanding around the interrelationship of addictive disorders between each other, as well as with mental health, Addiction Psychiatry, family, community, and culture.
Eric G. Tangalos, Mayo Clinic Alzheimer's Disease Center, USA
Your opportunities will include not only excellent science, but provide practical applications of knowledge to advance the care of your patient with cognitive, behavioral and functional decline.

Jose Leon-Carrion, University of Seville, Spain
We encourage you to participate in this event with original free papers and high-quality presentations on all aspects of dementia. We sincerely hope we can count on your contribution to this international platform and join us in working towards the generation of more effective therapies at all stages of this disease.

Krikor Dikranian, Washington University, USA
I would like to thank the Conference Series LLC and you for giving me the opportunity to participate in the meeting. I met with some wonderful people, the atmosphere was delightful. I look forward to be able to participate again.

Wayne Carter, University of Nottingham, UK
The feedback from the participants was really positive - we all thought the meeting was a great success. Relatively small meetings such as this one enabled us to get to know each other better and discuss overlapping interests and future collaborations.

Shireen Qureshi, Saudi Stroke Association, Dubai
It is my pleasure to welcome you to this important event with great honor and respect, we are delighted to invite you to be part of our International meet.

Michiaki Nagai, Jichi Medical University, Japan
It was very grateful that I could participate the congress, I was very impressed because the contents of the discussion were very high quality, and I enjoyed the interesting talk with many investigators, So, I think that the conference was very high level and well organized.
Dementia 2016 Report

5th International Conference on Alzheimer’s Disease & Dementia was organized during September 29-October 01, 2016 at Hilton London Heathrow Airport, London, UK with the support and contribution of the Organizing Committee Members.

All the participants were awarded with 5.25 AMA PRA Category 1 Credits™.

Firstly we must thank you for trusting us and participating at Dementia 2016, a global platform to discuss various important aspects of Alzheimer’s disease, Dementia and Neurological disorders.

There are infinite reasons to extend our gratitude to you for making Dementia 2016 an outstanding conference. We couldn’t have done it without your continuous support and believe towards our organization, which mutually made to achieve Dementia 2016 a new heights in the field of Neuroscience.

The conference was marked with the attendance of young and brilliant researchers, business delegates, Exhibitors and talented student communities representing more than 15 countries, who have driven this event into the path of success.

The conference was organized around the theme “An Insight into Advanced Research and Diagnostic Approaches in Alzheimer’s Disease and Dementia”. The event implanted a firm relation of upcoming strategies in the field of Research and Developments in Dementia with the scientific community. The conceptual and applicable knowledge shared, will also foster organizational collaborations to nurture scientific accelerations.
Past Conferences

Vascular Dementia 2016 Report

Active participation and generous response were received from the Organizing Committee Members, Editorial Board Members of Conference Series LLC Journals as well as from eminent scientists, talented researchers and young student community.

Dementia 2015 Report

In the presence of inter professional researchers and practitioners involved in the development of high quality education in all aspects of Alzheimer’s disease and Dementia, 3rd International Conference on Alzheimer’s Disease & Dementia was held during August 31-September 02, 2015 in Toronto, Canada.

Conference Series played host to a diverse panel of key members of the Neurology community from research lab, industry, academia and financial investment practices, discussing the future of Alzheimer’s and Dementia. This event was really aimed for examining where the real Alzheimer’s disease and Dementia specialties are going in the future and purpose of the event was to provide an opportunity for cross fertilization of ideas and development of ideas, in the field of Neurology.

About Rome, Italy

Why Rome, Italy: Rome has a status of the global city. It is known as the “Eternal city” and also “Caput Mundi,” coming from Latin and meaning capital of the world. The population of the city of Rome is around 2.7 million. The entire metropolitan area of Rome has an estimated 3.7 million people. According to the United Nations World Tourism Organisation (UNWTO), Europe was the most frequently visited region in the world in 2015, accounting for over half (51.4%) of all international tourist arrivals, equivalent to some 609 million persons. The wealth of European cultures, the variety of its landscapes and the quality of its tourist infrastructure are likely to be an attraction. The center of Rome is compact, and wandering the ruins on foot is a great way to see the city. Street life is vibrant and constant. The architectural design is consuming, and close proximity of ancient sights make for a comfortable and convenient walk. Rome is easily divided into two regions: the inner city, within the Aurealian Wall, built in the late third century to enclose the area around the Seven Hills; and the sprawling outer city, with its suburbs. The historical center is a small area, located almost entirely on the eastern bank of the Tiber River. Monuments of Rome’s past eminence are located mostly within the historical center and are a stark contrast to the modern districts.
