About Dubai

Dubai is the most populous city in the United Arab Emirates (UAE). It is located on the southeast coast of the Persian Gulf and is one of the seven emirates that make up the country. Abu Dhabi and Dubai are the only two emirates to have veto power over critical matters of national importance in the country's legislature. The city of Dubai is located on the emirate's northern coastline and heads up the Dubai-Sharjah-Ajman metropolitan area. Dubai is to host World Expo 2020. Dubai has emerged as a global city and business hub of the Middle East. One of the world's fastest growing economies, Dubai's gross domestic product is projected at USD 107.1 billion, with a growth rate of 6.1% in 2014.

A City Mayors survey ranked Dubai 44th among the world's best financial cities in 2007, while another report by City Mayors indicated that Dubai was the world's 27th richest city in 2012, in terms of purchasing power parity (PPP). Dubai is also an international financial centre and has been ranked 37th within the top 50 global financial cities as surveyed by the MasterCard Worldwide Centres of Commerce Index (2007), and 1st within the Middle East.
