Digestive Diseases 2017

Invitation

L o n d o n , U K

Dear Attendees,

We are glad to announce the **2nd International Conference on Digestive Diseases** to be held in **London, UK** from **October 12-13, 2017** organized by **Conference Series LLC, USA** in collaboration with generous support and cooperation from enthusiastic academicians and editorial Board Members.

This conference is a unique international platform that's a confluence of all stake holders of the ecosystem – Industry, Academia, Researchers, Innovators, Regulators – coming together to present and discuss current topics in Advances in Digestive Diseases, Gastrointestinal Oncology, Gastrointestinal Surgery, Advances in Liver Diseases, Gastrointestinal Immunology, Clinical Nutrition in Gastrointestinal Diseases, Endourology- Clinical Update, Neurourology and Urodynamics, Urologic Oncology, Microbiome in Gastrointestinal and Liver Diseases, Gastrointestinal Tract Imaging, Bowel Diseases, Obesity and Nutrition.

As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and livelier interaction with industry leaders and experts.

Life is full of give and take. Make it count in your professional life. Attend the Digestive Diseases Conference to network with your peers, exchange expertise and experiences, and arm yourself with the latest information to take your department to the next level.

We look forward to personally welcoming you to **London** this September.

Sincerely,

Digestive Diseases 2017

Organizing Committee

Market Analysis Report For Digestive Diseases 2017

London, UK

Summary

Digestive Diseases 2017 highlights the theme “Advanced Treatment methods & Research Results”. It mainly focuses on the latest diagnostic and therapeutic techniques for digestive diseases. It discusses the latest research outcomes and technological advancements in the field and brings together leading gastroenterologists, surgeons, physicians, research scholars, students along with industrial and pharma professionals to exchange share their views on critical aspects of gastroenterology research. There have been increases in the incidence of most gastrointestinal disorders in Europe which have major implications for future healthcare provision. Gastrointestinal cancer is the leading cause of cancer death in Europe. Recent studies of market value of GI therapeutics for major diseases in the eight major markets is expected to decrease in value from \$6.8 billion in 2012 to \$6.6 billion by 2019 forecasts business intelligence provider GBI Research. The major factors currently stabilizing the market include the increasing prevalence of GI diseases, growing awareness of the importance of detecting these diseases early and the availability of effective diagnostics creates an urgent need for organizing this gastroenterologist’s conference.

For more details please visit- <http://gastro.conferenceseries.com/>

Scope & Importance:

Digestive Diseases 2017 aims to bring together leading academic scientists, researchers and research scholars to exchange and share their experiences and research results about all aspects of gastro diseases. This gastro conference also provides the chance for researchers, practitioners and educators to present and discuss the most recent innovations, trends, and concerns, practical challenges encountered and the solutions adopted in the fields of Gastrointestinal therapeutics. It helps in promoting the advancement of gastroenterology. This gastro conferences provides a platform for organizations, companies, associations, societies, institutions, statutory bodies and other authorities and individuals interested in the causes, diagnosis, prevention and treatment of gastrointestinal diseases.

Gastroenterology is a specialty that tends to receive relatively little attention from a policy perspective and compared with other specialties, attracts relatively little charitable research funding. There have been increases in the incidence of most gastrointestinal disorders in Europe which have major implications for future healthcare provision. Gastrointestinal cancer is the leading cause of cancer death in Europe. It is also the most common cancer in men and the second most common in women after breast cancer. “Bariatric surgery conferences”

Cont...

is a general need for further research into the incidence, prognosis and public health burden of many gastrointestinal disorders across Europe and a particular need for more studies from Eastern Europe, along with pan-European and multinational studies.

Conference Highlights:

- Advances in Digestive Diseases
- Gastrointestinal Oncology
- Gastrointestinal Surgery
- Advances in Liver Diseases
- Gastrointestinal Immunology
- Clinical Nutrition in Gastrointestinal Diseases
- Endourology- Clinical Update
- Neurourology and Urodynamics
- Urologic Oncology
- Microbiome in Gastrointestinal and Liver Diseases
- Gastrointestinal Tract Imaging
- Bowel Diseases
- Inflammatory Bowel Diseases
- Obesity and Nutrition

- Colorectal Diseases
- Functional GI and Motility Disorders

Why to attend???

With members from around the world focused on learning about latest diagnostic and treatment procedures of various gastrointestinal diseases and all the related aspects of gastrointestinal diseases this is your best opportunity to reach the largest assemblage of participants from the entire world. From the workshop and speech of the eminent people of digestive disease conferences 2017, you can update your knowledge about current situation of gastroenterology and receive name and recognition at this 2-day event. World-renowned speakers with their ultimate talks on the most recent techniques, tactics, and the avant garde technologies in gastrointestinal therapeutics are the hallmarks of this digestive diseases conference 2017.

Global Market value of gastrointestinal therapeutics

Recent studies of market value of gastrointestinal therapeutics shows differences in different parts of the world. In 2012, the value of the gastrointestinal therapeutics market in major developed countries amounted to an estimated \$6.8 billion. This total is forecast to decline at a Compound Annual Growth Rate (CAGR) of 0.3% between 2012 and 2019. The value of the IBS market amounted to an estimated \$727m, and is forecast to increase at a CAGR of 14.4% between 2012 and 2019. The value of the UC market amounted to an estimated \$2.2 billion in 2012, and is expected to increase at a CAGR of 6% during the forecast period. The value of the CD market amounted to an estimated \$3.8 billion, which is expected to decline at a CAGR of 7.5% between 2012 and 2019.

Funding for Gastrointestinal therapeutics

Physician statistics

Health-care systems vary among countries and we were interested in how this might impact on gastroenterology manpower. The number of gastroenterologists in Canada and compared this with four countries where data were available over the Internet in either French or English. The number of gastroenterologists per 100,000 of the population was 3.9 in the United States, 3.48 in France, 2.1 in Australia, 1.83 in Canada, and 1.41 in the U.K. This variation in number of gastroenterologists was not reflected in the overall number of specialists per 100,000, which was similar in all five countries. Furthermore, the difference in gastroenterology manpower did not correlate with the amount of gross

Cont...

domestic product spent on health care. Countries with a low number of gastroenterologists per 100,000 all had a strong primary-care gatekeeper system, although this observation may be coincidental, as only five countries were studied. Canada had the most equitable distribution of gastroenterologists across the country with only modest differences among provinces. The United States had the most variation in the number of gastroenterologists per 100,000 of the population among states.

About Us

Our International Open Access Journals

- **700+** Leading-edge Peer Reviewed Open Access Journals
- **21 Day** Rapid Review Process
- **50000+** Editorial Board Team, **35000+** Reviewers team
- **30 Million Readers** and High Visibility
- **1000+** Scientific Associations Collaborations
- **100000+**  Likes
- **Publication** immediately after acceptance
- **Quality and Quick** editorial, review processing

Salient Features

- **Easy to Submit** and Review Systems
- **High Quality** and Fast Publishing Guaranteed
- **Unbiased, quality-oriented,** and transparent reviews
- **Truly impartial recognition** of the best papers
- **Feedback** on the impact of every article
- **Enhanced feature:** Audio version of published paper
- **Digital articles** to share and explore
- **Sharing option:** Social networking enabled
- Authors, reviewers and editors are provided with **scientific credits**
- User friendly/feasible website articles **translations** across more than **50 world languages**

Our International Scientific Conferences

- More than **3000 Conferences** happening across the globe
- Conferences organized in **Medical, Pharma, Engineering, Science, Technology and Business.**
- **CME/CPD Accredited** Conferences fostering professional and Personal development
- **Continuum of education** through organized scientific program
- **Renowned speakers** and scientists representing from **40 countries**
- **Highly Interactive sessions** and Panel Discussions
- **B2B Meetings** offers perfect platform for Global Networking

Salient Features

- **Robust on-line publicity** for all the speakers and organizing committee members
- **Career Guidance** Workshops for students and early career researchers
- **Accepted Abstracts** will be published in various **indexed journals**
- **Accepted abstracts** will be labeled with a **Digital Object Identification Number (DOI)** provided by **Cross Ref**
- **Creation** of speakers and abstracts pages in Google
- **Opportunity** to publish full Manuscripts in our Open Access Journals

Special Issues : All accepted abstracts will be published irrespective Conference Series LLC Journals

Each abstract will be provided with digital Object Identifier by  Crossref

About Conference

Digestive Diseases 2017 Conference website is attracting **25000+** Digestive Disease Specialists Gastroenterologists, Endoscopists Physicians online visitors ranging from Researchers, Academicians and Business professionals, who are working in this field. This unique opportunity that we extend to our speakers and attendees is not being offered by any other conference organizers. Through this the abstracts and research profiles of our speakers and organizing committee members getting global visibility which is an additional feature that you would be receiving in addition to networking opportunities before, during and after the conference.

How Conference Series Conferences differs from others?

- 3000+ Conferences across the globe in 30+ countries all through the year
- Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
- Participation by Stalwarts from various international societies
- Internationally renowned speakers and scientists representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking

Digestive Diseases 2017 salient features

- Meet Academia and Industry visionaries to get inspired
- Expand your knowledge and find solutions to problems
- Knowledge, Benchmarking and Networking offered at one place
- Forge connections and for global networking
- Highly Organized and Structured Scientific programs
- Poster presentations and world class exhibitions
- Meet with new vendors and suppliers

About Conference

L o n d o n , U K

Purpose

2nd International Conference on Digestive Diseases is an arena for interdisciplinary exchange among professionals in the fields of Digestive Diseases, Gastroenterology, Endoscopy.

Goals

- The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration. The goals of the conference is to provide a transformative professional development experience through
- Bringing together the world's scientific experts to catalyze and advance scientific knowledge about Digestive Diseases present the most recent research findings, and promote and enhance scientific collaborations around the world.
- Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address regional, national and local responses to Elderly Population around the world and overcome barriers that limit access to care and services.

Objectives

After participating in this meeting, attendees should be able to

- Discuss emerging issues in Digestive Diseases & Gastroenterology
- Discuss and apply recent research findings related to Digestive Diseases & Gastroenterology

Who should attend

2nd International Conference on Digestive Diseases is exclusively designed for is exclusively designed for Hepatologists, Gastroenterologists, Toxicologists, Microbiologists, Pathologists, Oncologists, Researchers, Students, Business delegates and Young researchers across the globe.

About hosting organization

Conference Series is the world's leading specialist in organizing Academic, Scientific and Business conferences, meetings, symposiums and exhibitions in different verticals and horizontals like Medical, Pharma, Engineering, Science, Technology and Business to promote scientific research. Every year we host more than **3000+ global events** inclusive of **1000+ Conferences 1000+ Symposiums 1000+ Workshops** in **USA, Europe, Middle East and Asia** with the generous support and cooperation from our **30000+ Editorial Board Members, 1000+ Scientific Societies**. All the conference proceedings are published in the special issues of our **700+ Open Access International Journals** with the DOI provided by  **Crossref**

About London

L o n d o n , U K

London is the capital and most populous city of England and the United Kingdom. Standing on the River Thames in the south east of Great Britain. It was founded by the Romans, who named it Londinium. It is one of the world's leading financial centres and has the fifth-or sixth-largest metropolitan area GDP in the world depending on measurement. London is a world cultural capital. It is the world's most-visited city as measured by international arrivals and has the world's largest city airport system measured by passenger traffic. It is the world's leading investment destination, hosting more international retailers and ultra high-net-worth individuals than any other city. London's 43 universities form the largest concentration of higher education institutes in Europe, and according to 2014 report it is placed first in the world university rankings. According to the report London also ranks first in the world in software, multimedia development and design, and shares first position in technology readiness.

London has a diverse range of peoples and cultures, and more than 300 languages are spoken. The Office for National Statistics estimated its mid-2014 population to be 8,538,689, the largest of any municipality in the European Union, and accounting for 12.5 percent of the UK population. It is a leading global city, with strengths in the arts, commerce, education, entertainment, fashion, finance, healthcare, media, professional services, research and development, tourism, and transport all contributing to its prominence. Other famous landmarks include Buckingham Palace, the London Eye, Piccadilly Circus, St Paul's Cathedral, Tower Bridge, Trafalgar Square, and The Shard. It is the home to numerous museums, galleries, libraries, sporting events and other cultural institutions, including the British Museum, National, Tate Modern, British Library and 40 West End theatres.
