About Dubai

The World bank ranked Dubai and Abu Dhabi as being the 2nd and 3rd respectively most popular medical tourism destinations in the UAE. In first half of 2015, Dubai attracted 260,000 medical tourists. Standards of health care are considered to be generally high in the United Arab Emirates.

Dubai is a city in the United Arab Emirates, located within the emirate. The emirate of Dubai is located on the southeast coast of the Persian Gulf and is one of the seven emirates that make up the country. It has the largest population in the UAE (2,106,177) and the second-largest land territory by area (4,114 km²) after Abu Dhabi. Is one of the few cities in the world that has undergone such a rapid transformation - from a humble beginning as a pearl-diving Centre - to one of the fastest growing cities on earth. Dubai today is a tourism, trade and logistics hub and has earned itself the reputation of being the 'gateway between the east and the west'. It is also considered as the dynamic nucleus of the Arabian Gulf region.
