Abhigyan Satyam

National University of Ireland, Galway

Pramod Mishra

National University of Ireland, Galway

Satyanand Tyagi

Tyagi Pharmacy Association (TPA) & Scientific
Writer (Pharmacy), USA

Kamal Dua

International Medical University, Malaysia

Prasad Panzade

Aditya Birla Science and Technology Co. Ltd., USA

Arvind Pandey

Pfizer, India

Kaushik Anand

Johnson & Johnson, India

Rajsekhar Paul

Novartis Pharmaceutical Ltd in Basel, Switzerland

Song Gao

The University of Houston, China

Program Announcement

Venue

Hyatt Regency Osaka
Address: 1-13-11 Nanko-Kita, Suminoe-Ku
Osaka, Japan, 559-0034

Important Dates

Abstract Submission open: July 25, 2016
Online registration open: August 01, 2016
Early bird registration: May 29, 2017
On spot Registration: October 16, 2017

Accommodation

A large number of rooms have been reserved. Discounted room rates for Pharma Engineering 2017 participants are proposed. Only reservations made through the Conference will benefit these rates. The Conference Center can be easily reached by public transportation.

Exhibition and Sponsorship

An Exhibition will be held concurrently with the conference. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the fields of Pharma Engineering 2017.

About Osaka, Japan

Osaka is the second largest metropolitan area in Japan and serves a major economic hub. Historically a merchant city, Osaka has also been known as the “Nation’s Kitchen”. With a population of 2.5 million, Osaka is Japan’s third largest and second most important city. It has been the economic powerhouse of the Kansai region for many centuries. The city’s west side has the main port as well as a tourist destination with attractions such as Kyocera Dome, Universal Studios Japan, Osaka aquarium, Minami, Osaka castle, Umeda sky building and the Tempozan Harbour Village. Osaka is known for its food, both in Japan and abroad. Author Michael Booth and food critic François Simon of Le Figaro have both suggested that Osaka is the food capital of the world. Osaka’s culinary prevalence is the result of a location that has provided access to high quality ingredients, a high population of merchants, and close proximity to the ocean and waterway trade. In recent years, Osaka has started to garner more attention from foreigners with the increased popularity of cooking and dining in popular culture. The National Museum of Art (NMAO) is a subterranean Japanese and international art museum, housing mainly collections from the post-war era and regularly welcoming temporary exhibitions. Osaka Science Museum is in a five storied building next to the National Museum of Art, with a planetarium and an OMNIMAX theatre. The Museum of Oriental Ceramics holds more than 2,000 pieces of ceramics, from China, Korea, Japan and Vietnam, featuring displays of some of their Korean celadon under natural light.
