Program Announcement

Accommodation

A large number of rooms have been reserved. Discounted room rates for Fluid Dynamics & Aerodynamics 2017 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by public transportation.

Exhibition and Sponsorship

An Exhibition will be held concurrently with the Congress. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the fields of Fluid Dynamics & Aerodynamics.

About Rome

Rome is the capital city of Italy. Almost 2.9 million Populations reside in the area of 1,285 km², which makes it country's largest and most populated commune and fourth populous city of the European Union. Rome which is the Metropolitan City is located in the central-western portion of the Italian Peninsula and along the shores of Tiber river. Geographically the Vatican City is located within the boundaries of Rome, is an independent country, which is the rarest example of an existing country within a city. This is the reason why Rome has been defined as capital of two states. Rome has always been a major international centre for higher education, it contains a large number of universities and colleges, La Sapienza founded in 1303, is one of the largest universities in the world. Rome is also one of the major tourist attractions of the world which receives an average of 7–10 million tourists a year. Its rich heritage is reflected by archaeological sites like fountains, churches and historical buildings. Rome has Mediterranean climate with cool, humid winters and hot, dry summers. The best time to visit Rome is from October to April. Its average annual temperature is above 20 °C. Rome was ranked 32nd in the Global Cities Index and being the highest ranking city in Italy.

Venue

Rome, Italy
October 19-20, 2017
