

10th International Conference on Gastroenterology and Endoscopy

Nov 13-15, 2017 Las Vegas, USA

Theme: Present Status and Future Implications

Letter of Collaboration

Greetings from Gastro Congress 2017!!

It feels immense pleasure to inform you that after completing nine successful years in organising Gastroenterology and Endoscopy International Conferences globally and getting mass response, we are going to organize the 10th International Conference on Gastroenterology and Endoscopy during November 13-15, 2017 at Las Vegas, USA.

We are writing this letter to request you to create a new alliance by collaborating with us towards the scientific development of the society of Gastroenterology.

Why to Collaborate ?

- ▶ Both developed and undeveloped countries need better health care for their country's women, children and men. International Health Conferences provide a platform to explore the recent advancement in healthcare sciences so as to develop the undeveloped countries and make the developed countries more organised in healthcare.
- ▶ Gastroenterology Research has evolved more rapidly and plays a major role in promising a better life for human races in the near future.
- ▶ Gastro Congress 2017 provides platform from Industrial Experts to PhD Scholar Students to present their research findings among Gastroenterologists and bring out the future implications of GI Science.

- ▶ Professionals, Doctors, Physicians, and Universities associated with you will have an easy access to present their research papers among a large mass of audience.

One year Membership Benefits on Gastroenterology, Hepatology Conferences conducted by us which include:

- ✓ Logo of your Organisation in Gastroenterology Conferences official web page as well as in the Conference Proceedings to be conducted in the year 2017
- ✓ A4 Advertisement of your Organisation in the Conference Proceeding book
- ✓ Chance to promote your own Conference in our Gastro Conferences during 2017
- ✓ Best Poster Award Certification to attendees with your Organisation logo imprinted in it
- ✓ A video about your organization can be played at the conference
- ✓ Separate webpage would also be created with the name of your organization for global recognition
- ✓ Banner of your Organisation in the Conference Hall
- ✓ Discounts up to 40% to speakers and delegates appearing through your Organisation to attend the Conference
- ✓ Easy access to Doctors to approach your organisation and a good platform for networking
- ✓ Platform to carry out sessions establishing your present status and future implications to Gastroenterology Society
- ✓ Upon completion of the conference, complete participant list would be shared along with the contact details
- ✓ While sending the thanking mail, your organization logo would also be included in the signature

How to be a Collaborating Body?

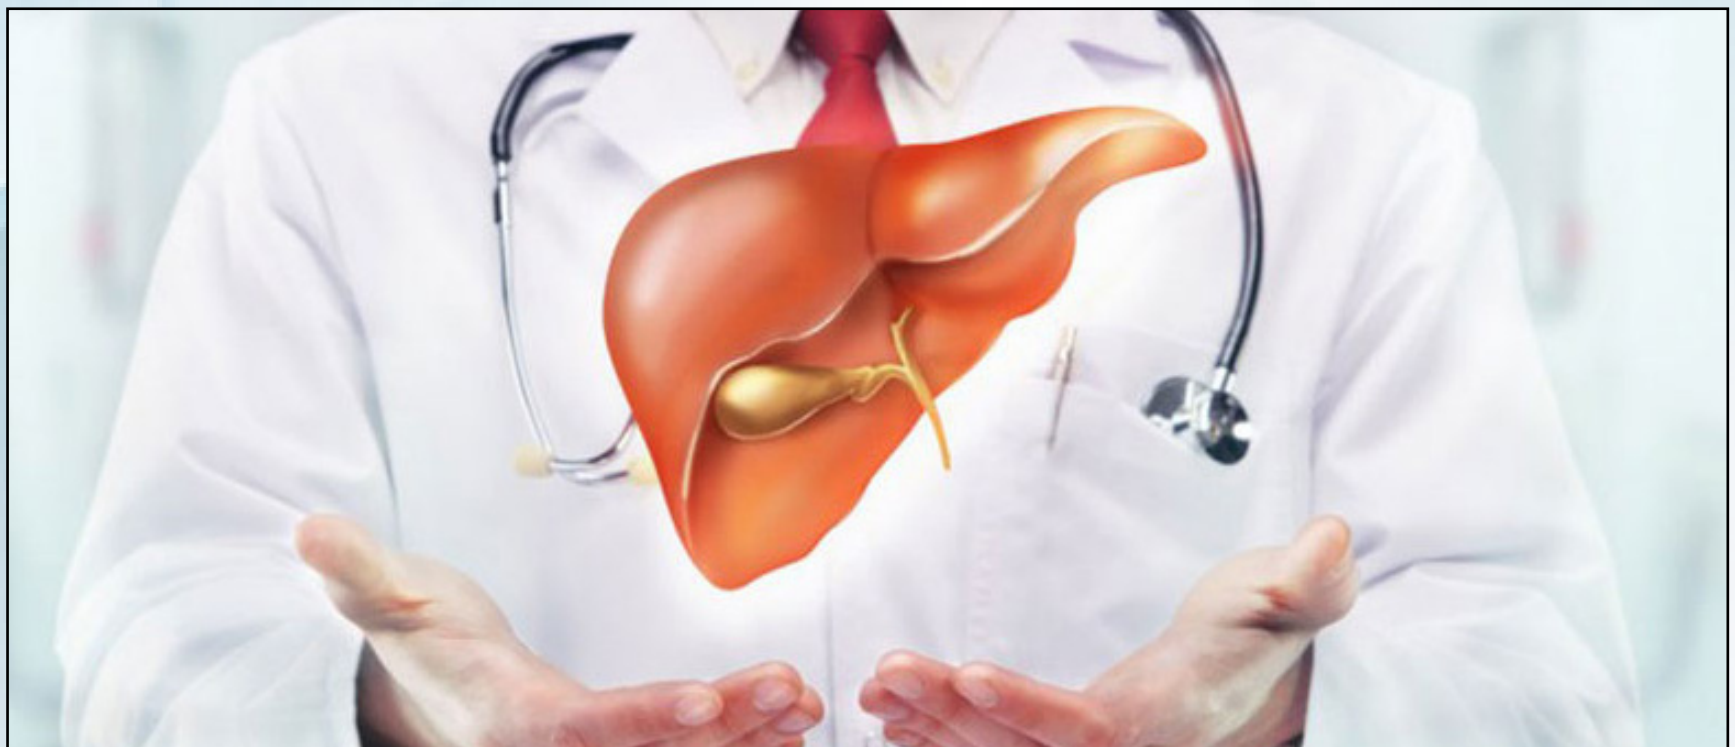

- ▶ Registering your Organisation with us for a period of 1 year by paying \$2500
- ▶ List the details of our Conference in your Organisation's official web page
- ▶ To provide reference to Gastroenterology Society (a minimum of 3) with our

Organization and they will be given the similar benefits but they should be referred from your end.

- ▶ Conducting sessions about your organisation's latest development towards the field of Gastrointestinal Science at the Conference.
- ▶ Promoting the Conference in various industrial sites related to Pharmaceuticals and Hospitals so as to create awareness about the Conference.
- ▶ Allowing Physicians from Organisation or Universities you are associated with to carry out workshops at the Conference.

With your organisation's successful accomplishment in the field of Human Health Development with a motto towards generating new values in human life from the beginning of their biological life at fertilization until natural death, we expect a helping hand from you to bring out the aspects of Nutritional Science among major Gastro Professionals present globally.

The Gastro Congress 2017 at Las Vegas, USA is going to witness around 300-340 attendees. With your support as a collaborative body, we hope to make this Conference more successful reaching a new height of more attendees from Institutional and Healthcare Organisations present near and around USA.

Please let us know if this proposal suits you and you want to carry out a new alliance with us to promote awareness of Gastric and Hepatology Disorders in the rapid evolving generation of health sciences.
