**Green Chemistry
2017**

Dear Colleagues,

Conference Series Ltd is delighted to welcome you to Atlanta, USA for the prestigious **4th International Conference on Past and Present Research Systems of Green Chemistry. Green Chemistry 2017** will focus on the theme "Advances in Continuous Green Chemistry: Back to the Future". We are confident that you will enjoy the Scientific Program of this upcoming Conference.

We look forward to see you at Atlanta, USA.

With Regards,
Green Chemistry 2017 Operating Committee
Conference Series Ltd Conferences

Editorial Board Members of Supporting Journals:

James W DuMond Jr

Texas Southern University, USA

Henry F Schaefer III

University of Georgia, USA

Andes Hess

Vanderbilt University, USA

Richard D McCullough

Carnegie Mellon University, USA

William Maher Nelson

University of Illinois, USA

R Karl Dieter

Clemson University, USA

Haider A Khwaja

University at Albany, USA

Anton Amann

Innsbruck Medical University, Austria

Mohamed Abdel-Rehim

Stockholm University, Sweden

Nora Fung Yee Tam

City University, Hong Kong

**Green Chemistry
2017**

Program Announcement

Accommodation

A large number of rooms have been reserved. Discounted room rates for Green Chemistry 2017 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by public transportation.

Exhibition and Sponsorship

An Exhibition will be held concurrently with the Congress. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the fields of Green Chemistry.

About Atlanta

Atlanta is the capital of and the most populous city in the US state of Georgia, with an estimated 2013 population of 447,841. Atlanta is the ninth largest metropolitan area in the United States and the fifth largest metropolitan area in Southern United States, just behind Dallas, Houston, Washington, DC and Miami. Atlanta is the county seat of Fulton County, and a small portion of the city extends eastward into DeKalb County.

Atlanta was established in 1837 at the intersection of two railroad lines, and the city rose from the ashes of the Civil War to become a national center of commerce. Atlanta is considered an "alpha-" or "world city", ranking 45th among world cities and 8th in the nation with a gross domestic product of \$270 billion

Atlanta encompasses 132.4 square miles (342.9 km²), of which 131.7 square miles (341.1 km²) is land and 0.7 square miles (1.8 km²) is water. The city is situated among the foothills of the Appalachian Mountains, and at 1,050 feet (320 m) above mean sea level, Atlanta has the highest elevation of major cities east of the Mississippi River.

Under the Köppen classification, Atlanta has a humid subtropical climate (Cfa) with four distinct seasons and generous precipitation year-round, typical for the inland South. Summers are hot and humid, with temperatures somewhat moderated by the city's elevation. Winters are cool but variable, with an average of 48 freezing days per year and temperatures dropping to 0 °F (-17.8 °C) on rare occasions.

Venue

Atlanta, USA

Important Dates

Abstract submission opens: *September 25, 2016*

Registration opens: *September 25, 2016*

Early bird registration: *January 31, 2017*

On spot registration: *October 16, 2017*

Conference Secretariat

2360 Corporate Circle, Suite 400, Henderson, NV 89074-7722, USA
