University of British Columbia,
Canada

Program Announcement

Venue

Holiday Inn Toronto International Airport
970 Dixon Road, Toronto,
Ontario M9W 1J9, Canada

Important Dates

Abstract submission opens: July 15, 2015
Registration opens: July 22, 2015
Early bird registration: May 16, 2016
On spot registration: August 11, 2016

Accommodation

A large number of rooms have been reserved. Discounted room rates for Hypertension 2016 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by public transportation.

Exhibition and Sponsorship

An Exhibition will be held concurrently with the Congress. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the fields of Hypertension & Healthcare.

About Toronto

Toronto, the provincial capital of Ontario, Canada, is a large, ethnically diverse city sprawling along Lake Ontario's north-western shore. It is situated on a broad sloping plateau intersected by an extensive network of rivers, deep ravines, and urban forest. The Greater Toronto Area (GTA) is the most populous metropolitan area in Canada, with 5,583,064 people living in the census metropolitan area. It is an international centre of business, finance, arts, and culture. It is a prominent centre for music, theatre, motion picture production, and television production and is home to the headquarters of Canada's major national broadcast networks and media outlets. Toronto is well known for its buildings, in particular the tallest free-standing structure in the Western Hemisphere, the CN Tower.

Culture in Toronto is most ethnically diverse one. Many immigrant cultures have escorted their traditions and music to the city. It is a city of many museums, theatres, festival events and sports activities. It is also a home for numerous universities and post-secondary academic institutions.

People attending the Toronto conferences can spend their leisure time exploring the different museums of the city that are the best tourist attractions, like the Royal Ontario Museum, the Toronto Zoo, the Ontario and many others. The city also features abundant green spaces, from the orderly oval of Queen's Park to 400-acre High Park and its trails. Other remarkable neighbourhoods and attractions include The Beaches, the Toronto Islands, Kensington Market, Fort York, and the Hockey Hall of Fame.

Toronto's Discovery District is a centre of research in biomedicine. It is also host to a wide variety of health-focused non-profit organizations that work to address specific illnesses for Toronto, Ontario and Canadian residents.
