About Prague

Prague is the capital and biggest city of the Czech Republic. It is the fifteenth biggest city in the European Union. It is likewise the recorded capital of Bohemia. Arranged in the north-west of the nation on the Vltava waterway, the city is home to around 1.26 million individuals, while its bigger urban zone is assessed to have a populace of almost 2 million. The city has a mild atmosphere, with warm summers and cold winters. Prague has been a political, social, and monetary focal point of focal Europe with waxing and melting away fortunes amid its history.

Prague's economy represents 25% of the Czech Republic's GDP making it the most noteworthy performing territorial economy of the nation. As per the Eurostat, starting 2007, its GDP per capita in buying power standard is €42,800. Prague positioned the fifth best-performing European NUTS two-level locale at 172 percent of the EU-27 normal. It is a world social capital and it is the world's most-gone to city as measured by universal entries. Right around one-portion of the national salary from tourism is spent in Prague. The city offers roughly 73,000 beds in settlement offices, the vast majority of which were worked after 1990, incorporating just about 51,000 beds in inns and motel. As indicated by the 2011 enumeration, around 14% of the city tenants were outsiders, the most elevated extent in the nation. Prague draws in more than 16 million global guests for each year making it Europe's most gone by city making it Europe's most gone by city. Prague pulls in 27 million overnight-stay guests consistently.
