**Microbial  
Physiology 2017**

*Dear Colleagues,*

Conference Series LLC is delighted to welcome you to Munich, Germany for the prestigious **6<sup>th</sup> International Conference on Microbial Physiology and Genomics**. Microbial Physiology 2017 will focus on the theme **“Revealing the Innovations in Microbial Physiology and Genomics”**. We are confident that you will enjoy the Scientific Program and associated expo of this upcoming conference.

With Regards,  
**Microbial Physiology 2017 Scientific Committee**  
Conference Series LLC Conferences

### **Editorial Board Members of Supporting Journals:**

**Joel Kenneth Weltman**

School of Medicine Brown University, USA

**Pascal M. Dohmen**

Leipzig University, Germany

**Florian Szabados**

Ruhr-University Bochum , Germany

**Kevin Coombs**

University of Manitoba Winnipeg, Canada

**Udai P Singh**

University of South Carolina Columbia, USA

**Charles J. Malemud**

Case Western Reserve University, USA

**Microbial  
Physiology 2017**

# Program Announcement

## **Accommodation**

*A large number of rooms have been reserved. Discounted room rates for Microbial Physiology 2017 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by Public transportation.*

## **Exhibition and Sponsorship**

*An Exhibition will be held concurrently with the Congress. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the field of Aging Science, Geriatrics, Gerontology & Palliative Care.*

## **About Munich**

*Munich, the capital of Bavaria, is home to centuries-old buildings and numerous museums. The city is known for its annual Oktoberfest celebration and cavernous beer halls, including the famed Hofbrauhaus, founded in 1589. In the walkable Old Town, Marienplatz is a central square containing landmarks such as Gothic Neues Rathaus (town hall), with a popular glockenspiel show. The river Isar flows through the city and it is generally a very green place. The enormous Englischer Garten, is a park with a boating lake and beer garden (of course) and is well worth a visit. Munich is the largest city in the south of Germany and is about an hour and a half drive from the Alps. Most of the time the mountains are just a dark unclear shadow on the horizon, but with the right weather conditions - specifically a special wind called the Foehn, they become crystal and beautifully clear. This is when the postcard pictures get taken. Munich is very close to Austria, Switzerland and after a short hop through Austria, also Italy.*

*It is a mostly flat place and has true continental weather i.e. very warm in the summer, and very cold in the winter. The summer sees quite a few thunderstorms in the evenings, but far more beautiful sunsets. If you come in the winter, bring really warm clothes, in summer the nights are balmy but bring a small umbrella just in case.*

*Under an hour's drive away to the south (with train connections too of course) are the lakes which is where many Michener's head for during the summer months. These are glacial lakes, and therefore deep and cold till well into summer, though there are also smaller ones which warm up more quickly.city.*

## **Venue**

Munich, Germany

## **Important Dates**

*Abstract submission opens: October 15, 2016*

*Registration opens: October 30, 2016*

*Early bird registration: December 09, 2016*

*On spot registration: July 17, 2017*

## **Conference Secretariat**

2360 Corporate Circle, Suite 400 Henderson, NV 89074-7722, USA Ph: +1-888-843-8169
