Program Announcement

Accommodation

A large number of rooms have been reserved. Discounted room rates for Applied Microbe 2016 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by public transportation.

Exhibition and Sponsorship

An Exhibition will be held concurrently with the Conference. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the fields of Applied Microbiology.

About Las Vegas

Las Vegas, Nevada, has evolved over the years from a small desert town into one of the top entertainment and gambling centers of the world. The city attracts high rollers from across the globe to its numerous casinos as well as the planet's top live performers and stage acts. The Las Vegas strip features an endless stream of activity just about every day of the year as visitors are drawn to the themed-casinos to play their favorite games of chance and to try out the top-class buffets that are prepared by some of the world's best-known chefs. Drinks are free in most casinos when you're playing their games and you can always place a bet on almost any major sporting event in the world. Most of the casinos also offer first-rate accommodation, including some of the most luxurious suites in America. The city hosts numerous sporting events throughout the year such as world championship boxing matches, NASCAR motor racing and UFC martial arts contests. There are hotels and restaurants to fit all budgets and plenty to do for non-gamblers. Renting a car and driving out into the Nevada desert is an ideal way to spend a relaxing day while exploring the local rock formations. The Grand Canyon isn't too far away for a day trip, neither is Hoover Dam. As Vegas offers an assortment of activities for fun seekers of all ages and combined with its hot weather it's no wonder it's one of the top places to visit in America.
