Program Announcement

Accommodation

A large number of rooms have been reserved. Discounted room rates for Asia Pacific Nano Congress participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by Public transportation.

Exhibition and Sponsorship

An Exhibition will be held concurrently with the Conference. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the fields of NanoScience and NanoTechnology.

About Dubai, UAE

Dubai is the most populous city in the United Arab Emirates (UAE). It is located on the southeast coast of the Persian Gulf and is one of the seven emirates that make up the country. The city of Dubai is located on the emirate's northern coastline and heads up the Dubai-Sharjah-Ajman metropolitan area. Dubai is to host World Expo 2020.

Dubai has emerged as a global city and business hub of the Middle East. It is also a major transport hub for passengers and cargo. By the 1960s, Dubai's economy was based on revenues from trade and, to a smaller extent, oil exploration concessions, but oil was not discovered until 1966. Oil revenue first started to flow in 1969. Dubai's oil revenue helped accelerate the early development of the city, but its reserves are limited and production levels are low: today, less than 5% of the emirate's revenue comes from oil. The emirate's Western-style model of business drives its economy with the main revenues now coming from tourism, aviation, real estate, and financial services. Dubai has recently attracted world attention through many innovative large construction projects and sports events. The city has become iconic for its skyscrapers and high-rise buildings, in particular the world's tallest building, the Burj Khalifa.

Dubai delivers a world class education and also immense job opportunities for well-educated students. The most well-known medical universities in Dubai are Gulf Medical University, RAK Medical and Health Sciences University, Royal College of Surgeons in Ireland (Dubai), Harvard Medical School Dubai Center, Dubai Medical College offering courses in Toxicology, Pharmacology, Public Health, Clinical Pathology, Community Medicine, Pathology, Histology, Biochemistry, Surgery.

Venue

Dubai, UAE

Important Dates

Abstract submission opens: November 01, 2016

Registration opens: November 01, 2016

Early bird registration: February 27, 2017

On spot registration: October 16, 2017
