

## 13<sup>th</sup> International Conference and Exhibition on Nanomedicine and Pharmaceutical Nanotechnology July 24-25, 2017 Rome, Italy

*Theme: "Nanomedicine: Shaping the future of next generation medicine"*

Dear Colleagues,

Conference Series LLC is delighted to welcome you to Rome, Italy for the Prestigious International Conference and Exhibition on Nanomedicine and Pharmaceutical Nanotechnology. NanoMed 2017 will focus on "Nanomedicine: Shaping the future of next generation medicine". We are confident that you will enjoy the Scientific Program of this upcoming Conference. We look forward to see you at Rome, Italy.

With Regards,

NanoMed 2017 Organizing Committee

### Editorial Board Members of Supporting Journals:

Andrij Holian

The University of Montana, USA

Mena Farid

International Consulting Expert Healthcare and Biosystems,  
France

Xuping Sun

Chinese Academy of Sciences, China

Adnane Abdelghani

National Institute of Applied Science and Technology, Tunisia

Bruce Kim

University of Alabama, USA

Martin. J. Snowden

University of Greenwich, United Kingdom

Eduardo Sobarzo-Sánchez

University of Santiago de Compostela (USC), Spain

Ahmed Safwat

Queens University, Canada

Dmitri Lapotko

Rice University, USA

Donna J Nelson

University of Oklahoma, USA

Baohua Huang

University of Michigan, USA

James F Leary

Purdue University, USA

Suzy V Torti

Wake Forest University, USA

Hayat Onyuksel

University of Illinois, USA

# Program Announcement

## Venue

Holiday Inn Rome - Aurelia  
Via Aurelia Km 8,400, 00163 Roma, Italy

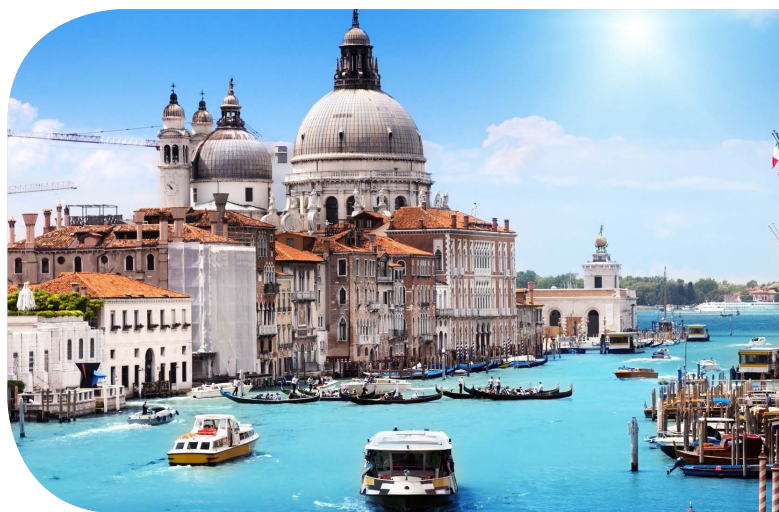

## Important Dates

Abstract Submission opens: August 24, 2016

Registration opens: August 24, 2016

Early bird registration: December 19, 2016

On spot registration: July 24, 2017

## Accommodation

A large number of rooms have been reserved. Discounted room rates for NanoMed 2017 participants are proposed. Only reservations made through the Conference will benefit these rates. The Conference Center can be easily reached by public transportation.

## Exhibition and Sponsorship

An Exhibition will be held concurrently with the Conference. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the fields of Nanomedicine and Pharmaceutical Nanotechnology.

## About Rome, Italy

Rome is the capital city of Italy and of the Lazio region. With 2.9 million residents in 1,285 km<sup>2</sup> (496.1 sq mi), it is also the country's largest and most populated commune and fourth-most populous city in the European Union by population within city limits. The Metropolitan City of Rome has a population of 4.3 million residents. The city is located in the central-western portion of the Italian Peninsula, within Lazio (Latium), along the shores of Tiber River. Vatican City is an independent country within the city boundaries of Rome, the only existing example of a country within a city: for this reason Rome has been often defined as capital of two states.

Rome's history spans more than two and a half thousand years. While Roman mythology dates the founding of Rome at only around 753 BC, the site has been inhabited for much longer, making it one of the oldest continuously occupied sites in Europe. It is referred to as "Roma Aeterna" (The Eternal City) and "Caput Mundi" (Capital of the World), two central notions in ancient Roman culture.

Rome has been a major Christian pilgrimage site since the middle Ages. People from all over the Christian world visit Vatican City, within the city of Rome. Rome's architecture over the centuries has greatly developed, especially from the Classical and Imperial Roman styles to modern Fascist architecture. Rome was for a period one of the world's main epicenters of classical architecture, developing new forms such as the arch, the dome and the vault. The Romanesque style in the 11th, 12th and 13th centuries was also widely used in Roman architecture, and later the city became one of the main centers of Renaissance and Baroque architecture.
