OMICS Group welcomes you to attend the **7th Global Annual Meet on Neurology and Neurosurgery** during **August 22-24, 2016** at **Vienna, Austria**. The main theme of the conference is **“Scientific quest to enhance the fascinating and mystified Neurons”**

We cordially invite all the participants who are interested in sharing their knowledge and research in the arena of Stroke. Neurologists 2016 anticipates more than 300 participants around the globe with thought provoking Keynote lectures, Oral and Poster presentations. The attending delegates include Editorial Board Members of related OMICS Group Journals.

Neurologists 2016 facilitates academic, presenter, industrialist and exhibitors from all over the world to a meeting of Neuroscience organizations and Stroke committees to discuss the future of the Neurological disorders and stroke in terms of collaboration, structures and organizational development.

This Conference will provide a forum for exchange of ideas and authoritative views by leading scientists as well as business leaders and investors in this exciting field. Outstanding keynote speakers and well known leading scientists and experts from around the globe will be expected to share their knowledge.

It is a broad audience gathering for exploring the advancement in Neurology and Neurosurgery which focus on its prevention and treatments. This is an excellent opportunity for the delegates from Universities and Institutes to interact with the world class Scientists. The intending participants can confirm their participation by registering for the conference along with your colleagues. Avail the delegate early bird offer.

**The main theme of the conference is “Scientific quest to enhance the fascinating and mystified Neurons”**.

We have the pleasure to invite and welcome you for the participation to our exciting conference. Let us meet in one of the most glorious cities in the world.

 Regards,

**Neurologists-2016 Organizing Committee**
## Great Meeting Destination for International Delegates

**Cross your Country Borders!**

**Plan your Trip to Austria**

- St Stephen's Cathedral
- Schönbrunn Palace and Gardens
- The Hofburg
- The Austrian Parliament Building
- Belvedere Complex
- The Vienna State Opera House
- Burggarten
- Wiener Rathaus

**Great Meeting Destination for International Delegates**
OMICS International Journals

• 500 Open Access Journals
• 21 Day rapid review process
• 50000 Editorial team, 55000 Reviewers team
• 3.5 Million readers and high visibility
• More than 100000 Publication immediately after acceptance
• Quality and quick editorial, review processing

Key features

• User friendly/feasible website translation of your paper to 50 world’s leading languages
• Enhanced feature: Audio version of published paper
• Digital articles to share and explore
• Sharing option: Social networking enabled
• Authors, reviewers and editors are provided with scientific credits

OMICS International Conferences

• 300+ Conferences all over the World every year
• Well organized scientific program
• Renowned speakers and scientists across the globe
• Poster presentations and world class exhibits
• Panel discussions and interactive sessions
• B2B meetings
• Perfect platform for Global Networking

Key features

• Presentation by renowned speakers from all over the world
• Poster presentations and world class exhibits
• Interactive Sessions
• Platform for global networking
• Connecting scientific community

Special Issues

All accepted abstracts will be published in respective OMICS Group Journals

Each abstract will be provided with digital Object Identifier by crossref

Past Conference Report 2013

The International Conference on Psychology, Autism and Alzheimer's disease, organized by OMICS Group International was successfully held at Hilton San Antonio Airport, TX, USA during September 30-October 01, 2013.

OMICS Group is grateful to Dr. Andrew V. Schally, Nobel Prize in Medicine 1977, for his time and dedication as Honourable Organizing Committee Member, for his exceptional support towards Psycho AAD 2013.

The conference was organized with the theme “Global Perspectives and Current Trends in Psychology”. The conference was marked with the presence of renowned scientists, talented young researchers, students and business delegates representing more than 20 different countries ultimately driving the event into the path of success.

The highlights of the conference were its educative and effectual keynote lectures by: Joseph M. Rifkind, National Institute of Aging, USA; Jay kumar Rajdas, Stanford University, USA; H. Craig Heller, Stanford University, USA; George Perry, University of Texas at San Antonio, USA; Ronald J. Killiany, Boston University, USA; Mitchell Clionsky, Clionsky Neuro Systems, USA; Kalyani Gopal, American Psychological Association, USA.

Our special gratitude to our Collaborators Autism Community Network & Lebanese Psychological Association and Media Partners APPAC, Greece; Med tube, USA; ABP, Brazil; International Early Psychosis Association, Australia; Alzheimer’s Europe and Institute for forensic Criminology, Italy.

Past Conference Report 2014

The 2nd International Conference on Alzheimer’s disease and Dementia was organized by OMICS Group Inc., during September 23-25, 2014 at Valencia Convention Centre, Spain.

The conference was marked with the attendance of young and brilliant researchers, business delegates and talented student communities representing more than 35 countries, who have driven this event into the path of success.

The conference proceedings were carried out through various Scientific-sessions and plenary lectures, of which the following Speakers were highlighted as Keynote speakers: Eric G. Tangalos, Mayo Clinic, USA; Sanjay Asthana, University of Wisconsin, USA; Howard Rowley, University of Wisconsin, USA; Toru Itakura, Wakayama Medical University, Japan; Alan Palmer, Cerebroscience Ltd, UK; Barbara C. Fisher, United Psychological Services, USA; Nigel Hooper, University of Manchester, UK; Federico Licastro, University of Bologna, Italy.

The esteemed guests, Keynote speakers, well-known researchers and delegates shared their innovative research and vast experience through their fabulous presentations at the podium of grand Dementia-2014. We are glad to inform that all accepted abstracts for the conference have been indexed in OMICS Group Journal of Alzheimer’s Disease and Parkinsonism as a special issue. Basing on the conference theme, “Advanced Diagnostic & Therapeutic Approaches Towards Dementia” speakers recommended organizing the conference in the field of Alzheimer’s Disease and Dementia also in the next year.
Neurologists-2016 Market Analysis

• Neurology and the CNS is the branch of science dealing with anatomy, function, diagnosis and treatment of disorders and disease affecting the central nervous system (brain and spinal cord). Neuroscience medicine includes but is not limited to the study and treatment of Alzheimer’s disease, major depressive disorder, schizophrenia, Parkinson’s disease, epilepsy/seizures, migraine, insomnia/sleep disorders, bipolar disorder, and ADHD.

• Pharmaceuticals in CNS/Neurology are one of leading fields in medicine in terms of funding and research. On top of growing patient numbers, there remains a comparatively high unmet need in treatment of many neurological diseases.

• Technavio market research analyst expects the intraoperative neuromonitoring (IONM) market in the US to grow at a CARG of over 9% during the forecast period. IONM, which is a combination of surgical medicine and neuroscience, is one of the fastest-growing areas in the US. Many start-up companies started offering neuromonitoring services to surgeons, and hospitals for orthopaedic, neurosurgery, spine and vascular surgeries in the US. Companies such as Medtronic, Natus, and NuVasive provide advanced intraoperative neuromonitoring devices to service providers and hospitals.

• Neurosurgery is a complex surgical procedure that involves diagnosis, treatment, and rehabilitation of disorders affecting any region of the nervous system. These surgeries are performed to treat neurological disorders, tumors, trauma, and injuries. The devices used to perform neurosurgeries are neurosurgical devices and the Global Neurosurgery market to grow at a CAGR of 11.71 percent over the period 2014-2019.

• 2014 Global Neurosurgery in the Brain with a Knife Industry Report is a professional and in-depth research report on the world’s major regional market conditions of the Neurosurgery in the Brain with a Knife industry, focusing on the main regions (North America, Europe and Asia) and the main countries (United States, Germany, Japan and China).

• The global neurosurgical products market is estimated to be valued at US$3,685.8Mn by the end of 2015 and expand at a CAGR of 11.2% from 2015 to 2022, to account for US$7,756.2Mn by 2022.

• According to the European Commission, Germany had the highest geriatric population (60 years and above) base among all European Union member states, accounting for 20.6% of the total population of the country in 2011. This number is poised to reach approximately 50% by 2030.

• Growth of the neurosurgical products market in Asia-Pacific is primarily attributed to rising geriatric population, increasing healthcare expenditure, and growing awareness of the neurological condition in the region. According to UN reports, 10.1% of the total population of China is aged 60 years and above and this is expected to reach 30% by 2050.
Scientific Highlights

• Paediatric Neuropathy
• Autonomic Neuropathy
• Neurology
• Neuropharmacology
• Neuropediatrics
• Neuroimmunology
• Neurophysiology
• Clinical Neurophysiology
• Central Nervous System
• Minimally Invasive Surgery
• Paediatric Neurosurgery
• Spinal Neurosurgery
• Traumatic Neurosurgery
• Brain Neurosurgery
• Functional Neurosurgery
• Pituitary Neurosurgery
• Advanced Operative Techniques in Neurosurgery
• Neurocritical Care
Arvid Carlsson, Nobel Prize in Physiology/ Medicine for 2000
I wish to welcome all researchers from the fields of basic neuroscience, neurology, and neurosurgery to contribute with your valuable expertise, and to stimulate interdisciplinary endeavor.

John K. Grandy, North Country Urgent Care, USA
I had a great time at the conference this year and it was run much more efficiently than last year in Chicago. Thank you for the opportunity to participate.

Marie Trad, Quintiles, France
The meeting was very interesting and I met with very nice people.

Eric G. Tangalos, Mayo Clinic Alzheimer’s Disease Center, USA
Your opportunities will include not only excellent science, but provide practical applications of knowledge to advance the care of your patient with cognitive, behavioral and functional decline.

Krikor Dikranian, Washington University, USA
I would like to thank the OMICS group and you for giving me the opportunity to participate in the meeting. I met with some wonderful people, the atmosphere was delightful. I look forward to be able to participate again.

Jennifer DeFeo, The Chicago school of professional psychology, USA
I really enjoyed this conference.

Maria Elisa, Hospital of the Rio de Janeiro, Brazil
We have beautiful two days in San Antonio Conference, Congratulations to organized committee.
Wayne Carter, University of Nottingham, UK
We had an excellent day of talks thank you, lots of interest and questions for each of the talks.

Kathy Sexton Radek, Suburban Pulmonary & Sleep Associates, USA
The presentations varied from Basic Science in the physiological correlated Sleep Disorders to practice applications involving diagnostic, assessment and treatment of Sleep Disorders. Scientists and Practitioner from around the world attended our conference.

Hans Von Holst, Royal Institute of Technology, Sweden
Thank you for a well-organized Brain Disorders Conference.

Sha Mi, Biogen, USA
The meeting went well and lot of questions today! I will attend the OMICS meeting again!

Heinz Reichmann, University of Dresden, Germany
This conference is really timely and informed about symptoms, diagnosis and modern treatment of neuro patients.

Hans Von Holst, Royal Institute of Technology, Sweden
Thank you for a well-organized Brain Disorders Conference.

Expertise Outlook on Neuroscience Conferences

Michiaki Nagai, Jichi Medical University, Japan
I was very grateful that I could participate the congress, I was very impressed because the contents of the discussion were very high quality, and I enjoyed the interesting talk with many investigators, So, I think that the conference was very high level and well organized.

Emily Clionsky, Clionsky Neuro Systems, USA
Based on what we saw and with whom we spoke, we are sure that you enjoyed a productive and worthwhile experience. We ask that you share your experience with your colleagues, as well as urge them to support these meetings.

Wayne Carter, University of Nottingham, UK
We had an excellent day of talks thank you, lots of interest and questions for each of the talks.

Alon Y. Avidan, California Sleep Society, USA
Sleep Medicine 2015 illuminated the gravity of the topic, how it affects our day to day lives, prevention and stairway to a healthier tomorrow.

Kathy Sexton Radek, Suburban Pulmonary & Sleep Associates, USA
The presentations varied from Basic Science in the physiological correlated Sleep Disorders to practice applications involving diagnostic, assessment and treatment of Sleep Disorders. Scientists and Practitioner from around the world attended our conference.

Norman S. Miller, Michigan State University, USA
The priority aim of this Conferences will also be to deepen our understanding around the interrelationship of addictive disorders between each other, as well as with mental health, Addiction Psychiatry, family, community, and culture.

Wayne Carter, University of Nottingham, UK
The feedback from the participants was really positive - we all thought the meeting was a great success. Relatively small meetings such as this one enabled us to get to know each other better and discuss overlapping interests and future collaborations.

Howard Prentice, Florida Atlantic University, USA
We take great pleasure in welcoming you to our Neurology Conferences and understand that this will be an excellent opportunity for disseminating new research findings as well as enabling investigators to explore innovative and emerging aspects of this critically important research field.
Ayman Alboudi, UAE
It was a great pleasure to be there. Hope we meet soon

Odeda Peled, Integrative Therapy Center, Israel
The convention itself was very nice, dignified and well organized

Oleksandr Makarenko, Taras Shevchenko National University of Kyiv, Ukraine
I want to write, that the organization of the Conference was almost on high level

Jacqueline Sidman, The Sidman Institute, USA
It was my pleasure to participate. I enjoyed it very much

Nagwa Abdel Meguid, National Research Centre, Egypt
It was really wonderful conference
Neurologists 2016 aims to fasten the advancement of scientific knowledge that may ultimately result in a better prognosis for patients. International conference is the best platform to develop new partnership & collaborations. It provides an important base for the exchange of knowledge and experience amongst the clinicians. The internationally renowned speakers at this conference will explore the various aspects of Neurology and Neurosurgery.

**Neurologists-2016**

- Opportunity to attend the presentations delivered by eminent scientists from all over the world
- Selected contributions will be published in following OMICS Group Journals
  - Journal of Neurology & Neurophysiology
  - Journal of Neurological Disorders
  - International Journal of Neurorehabilitation
- Participation in sessions on specific topics on which the conference is expected to achieve progress
- Global networking: In transferring and exchanging Ideas
- Share your excitement in promoting Health care, Clinical R & D
Vienna, the capital of Austria, lies in the country’s east on the Danube River. Its artistic and intellectual legacy was shaped by residents including Mozart, Beethoven and Sigmund Freud. The city is also known for its Imperial palaces, including Schönbrunn, the Habsburgs’ summer residence. In the MuseumsQuartier district, historic and contemporary buildings display works by Egon Schiele, Gustav Klimt and other artists.

Vienna, also described as Europe’s cultural capital, is a metropolis with unique charm, vibrancy and flair. It boasts outstanding infrastructure, is clean and safe, and has all the inspiration that you could wish for in order to discover this wonderful part of Europe.

Vienna has more museums and galleries of international reputation than you can shake a stick at. Take, for example, the Museum of Fine Arts with the world’s largest collection of Bruegel paintings, MuseumsQuartier with the Leopold Museum, the Museum Moderner Kunst (Museum of Modern Art), Architekturzentrum (Architectural Center) and the Kunsthalle, all ranking among the city’s most important cultural venues.
About US

Venue
Vienna, Austria

Important Dates
Abstract submission opens: August 10, 2015
Registration opens: August 10, 2015
Early bird registration: March 31, 2016
On spot registration: August 22, 2016

Registration Details
Register online:
http://annualmeeting.conferenceseries.com/neurologists/registration.php

Registration Benefits
• Contribute to and learn about the most recent advances in Neurology and Neurosurgery field
• Accepted abstract will be published in respective OMICS journals
• Each abstract will receive a Digital Object Identifier (DOI) provided by crossref
• Conference will contribute to increment in overall research profile
• Golden chance to meet other researchers in neurology field and potential contacts for future positions
• International platform for presentation skills and expertise to discuss the research in clear and meaningful way
