Program Announcement

Accommodation

A large number of rooms have been reserved. Discounted room rates for Neurology 2018 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by Public transportation.

Exhibition and Sponsorship

An Exhibition will be held concurrently with the Congress. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the field of Neurology Neuroscience.

About London

London, Bavaria's capital, is home to centuries-old buildings and numerous museums. The city is a major international center of business, engineering, research and medicine exemplified by the presence of two research universities, a multitude of smaller colleges, headquarters of several multinational companies and world-class technology and science museums like the Deutsches Museum and BMW Museum

Why London??

- London is home to many national and international authorities, major universities and major museums. Its numerous architectural attractions, international sports events, exhibitions, conferences and Oktoberfest attract considerable tourism*
- London is a leading location for science and research and it is an internationally attractive site for training and research in neurosciences*
- In London, research related to neurosciences spans a wide spectrum of current investigation areas, ranging from neural stem cells and the molecular mechanisms of early brain development, via cellular and systems neurobiology (including neurology), neurocognition and behavior (including "theory of mind"), to epistemology, philosophy of science, logic, and ethics*
