OMICS International welcomes you to attend the 12th Nursing and Healthcare Congress during October 03-05, 2016 at Vancouver, Canada.

We cordially invite all the participants who are interested in sharing their knowledge and research in the arena of 12th Nursing and Healthcare Congress.

Nursing Congress 2016 anticipates more than 300 participants around the globe with thought provoking Keynote lectures, Oral and Poster presentations. The attending delegates include Editorial Board Members of related OMICS International Journals.

This is an excellent opportunity for the delegates from Universities and Institutes to interact with the world class Scientists.

The intending participants can confirm their participation by registering for the conference along with your colleagues. Avail the delegate early bird offer.

The main theme of the conference is “Current Challenges and Innovations in Nursing and Healthcare”.

Regards,
Nursing Congress 2016 Operating Committee
OMICS Group Journals
• 500 Open Access Journals
• 21 Day rapid review process
• 30000 Editorial team, 35000 Reviewers team
• 3.5 Million readers and high visibility
• More than 100000
• Publication immediately after acceptance
• Quality and quick editorial, review processing

Key features
• User friendly/feasible website translation of your paper to 50 world’s leading languages
• Enhanced feature: Audio version of published paper
• Digital articles to share and explore
• Sharing option: Social networking enabled
• Authors, reviewers and editors are provided with scientific credits

OMICS International Conferences
• 300 Conferences all over the World every year
• Well organized scientific program
• Renowned speakers and scientists across the globe
• Poster presentations and world class exhibits
• Panel discussions and interactive sessions
• B2B meetings
• Perfect platform for Global Networking

Key features
• Presentation by renowned speakers from all over the world
• Poster presentations and world class exhibits
• Interactive Sessions
• Platform for global networking
• Connecting scientific community

Special Issues
All accepted abstracts will be published in respective OMICS International Journals

Each abstract will be provided with digital Object Identifier by crossref

The importance of 2nd Nursing and Healthcare Congress is growing rapidly, influencing the scientific community. The significance can be gauged by the fact that it has made huge advancements over the course of time and is continuing to influence various sectors.

Nursing Congress 2016

- Opportunity to attend the presentations delivered by eminent scientists from all over the world
- Selected contributions will be published in following OMICS International Journals
  - Journal of Nursing & Care
  - Health Care: Current Reviews
  - Primary Health Care: Open Access
- Participation in sessions on specific topics on which the conference is expected to achieve progress
- Global networking: In transferring and exchanging Ideas

The Conference Highlights the following Topics

- Nursing Practice
- Nursing Education
- Nursing Management
- Disaster Nursing
- Health care and management
- Types of nursing
- Cancer and tumour nursing
- Cardiovascular Nursing
- Paediatric Nursing
- Midwifery Nursing
- Surgical Nursing
- Clinical Nursing
- Dental Nursing
- Nutrition and health
- Critical care and Emergency Nursing
- Women health nursing
- Gerontological Nursing
- Legal Nursing and Practitioner
- Telemedicine and e health
Who Can Attend

- Nurses
- Academicians
- Biostaticans
- Cardiologists
- Community health workers
- Community planners
- Community service providers
- Community-based organization staff
- Dentists
- Environmental health professionals
- Epidemiologists
- Gynecologists
- Health Educators
- Health officials
- Local public health agency staff
- Master/PhD students
- Medical professionals
- Mental Health Professionals
- Neurologist
- NGO workers
- Oncologists
- Para medics
- Patient Navigators
- Physicians
- Policy makers
- Program coordinators and administrators
- Psychiatrists
- Public health educators
- Public health nurses
- Public health professionals
- Registered Nurses
- Related health professionals
- Researchers and faculty
- Scientists
- State public health agency staff
- Others

Vancouver is a coastal seaport city on the mainland of British Columbia, Canada. The 2011 census recorded 603,502 people in the city, making it the eighth largest Canadian municipality. The Greater Vancouver area of around 2,4 million inhabitants is the third most populous metropolitan area in the country and the most populous in Western Canada. Vancouver is one of the most ethnically and linguistically diverse cities in Canada. Vancouver is classed as a Beta global city. The City of Vancouver encompasses a land area of about 114 square kilometers, giving it a population density of about 5,249 people per square kilometer (13,590 per square mile). Vancouver is the fourth most densely populated city over 250,000 residents in North America. Vancouver is consistently named as one of the top five worldwide cities for livability and quality of life, and the Economist Intelligence Unit acknowledged it as the first city to rank among the top-ten of the world’s most liveable cities.

The Fraser Gold Rush of 1858 brought over 25,000 men, mainly from California, to nearby New Westminster (founded 14 February 1859) on the Fraser River, on their way to the Fraser Canyon, bypassing what would become Vancouver. Vancouver is among British Columbia’s youngest cities; the first European settlement in what is now Vancouver was not until 1862 at McLeery’s Farm on the Fraser River, just east of the ancient village of Musqueam in what is now Marpole. A sawmill established at Moodyville (now the City of North Vancouver) in 1863, began the city’s long relationship with logging. It was quickly followed by mills owned by Captain Edward Stamp on the south shore of the inlet. Stamp, who had begun logging in the Port Alberni area, first attempted to run a mill at Brockton Point, but difficult currents and reefs forced the relocation of the operation in 1867 to a point near the foot of Dunlevy Street. This mill, known as the Hastings Mill, became the nucleus around which Vancouver formed.

Vancouver was founded as “Gastown” by an Englishman with a penchant for beer and storytelling. Today Gastown is a historic section of the Canadian metropolis, and the lively pubs still reflect the area’s former status as a sort of community drinking center. The city’s forests, grand parks, and impressive suspension bridge beckon travelers to explore them, as do the city’s shops and museums. Relive the glory of the 2010 Winter Games with visits to Olympic venues and the marvelous Olympic Cauldron.

**Venue**

Vancouver, Canada

**Important Dates**

- Abstract submission opens: October 12, 2015
- Registration opens: October 19, 2015
- Early bird registration: December 17, 2015
- On spot registration: October 03, 2016
