# Program Announcement

## **Accommodation**

*A large number of rooms have been reserved. Discounted room rates for Oral Biology & Restorative Dentistry 2017 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by Public transportation.*

## **Exhibition and Sponsorship**

*An Exhibition will be held concurrently with the Congress. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the field of Dentistry.*

## **About Toronto**

*Toronto is the most populous city in Canada, the provincial capital of Ontario, and the centre of the Greater Toronto Area, the most populous metropolitan area in Canada. A global city, Toronto is an international centre of business, finance, arts, and culture, and is widely recognized as one of the most multicultural and cosmopolitan cities in the world. The demographics of Toronto make it one of the world's most diverse cities, with about 50% of residents having been born in a country other than Canada, and over 200 distinct ethnic origins represented among its inhabitants. The vastly international population of the city reflects its current and historical role as an important destination for immigrants to Canada. While English is the primary language spoken by the majority of Torontonians, there are over 160 different languages spoken in the city. Toronto is a prominent centre for music, theatre, motion picture production, and television production, and is home to the headquarters of Canada's major national broadcast networks and media outlets. Its varied cultural institutions, which include numerous museums and galleries, festivals and public events, entertainment districts, national historic sites, and sports activities, are key attractions to the over 25 million tourists that visit the city each year. Toronto is well known for its sky scrapers and high-rise buildings, in particular the tallest free-standing structure in the Western Hemisphere, the CN Tower. As Canada's commercial capital, the city is home to the Toronto Stock Exchange, the headquarters of Canada's five largest banks, and the headquarters of many large Canadian and multinational corporations. Its economy is highly diversified with strengths in technology,*

## **Venue**

Toronto, Canada
