Program Announcement

Venue

JW Marriott Dubai
Abu Baker Al Siddique Road
Hamarain Centre
Deira, PO Box 16590
Dubai, UAE

Accommodation

A large number of rooms have been reserved. Discounted room rates for Otolaryngology 2017 participants are proposed. Only reservations made through the Conference will benefit these rates. The Conference Center can be easily reached by public transportation.

Exhibition and Sponsorship

An Exhibition will be held concurrently with the conference. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the fields of Otolaryngology 2017.

About Dubai, UAE

Dubai is a city in the United Arab Emirates, located within the emirate. The emirate of Dubai is located on the southeast coast of the Persian Gulf and is one of the seven emirates that make up the country. It has the largest population in the UAE (2,106,177) and the second-largest land territory by area (4,114 km²) after Abu Dhabi. Is one of the few cities in the world that has undergone such a rapid transformation - from a humble beginning as a pearl-diving centre - to one of the fastest growing cities on earth. Dubai today is a tourism, trade and logistics hub and has earned itself the reputation of being the 'gateway between the east and the west'. It is also considered as the dynamic nucleus of the Arabian Gulf region.

Dubai is without a doubt a destination of the 21st century. Read any article about the fastest growing city in the region and it's almost guaranteed you'll see the words 'ambitious', 'record-breaking' and 'staggering'. This meteoric growth has not gone unnoticed, and each year thousands of expats arrive to claim a slice of the action.

Dubai is already renowned as the business capital of the Middle East Region. It is now fast becoming the regional capital for healthcare as well. Through its various ENT healthcare projects and with help of ministry of health, Dubai is set to become the hub for specialized Otolaryngologist and a center for medical education and research, covering more than 30 countries including the Middle East, North Africa and the Indian Subcontinent.
