2017**

# Program Announcement

## **About San Francisco, USA**

*Situated on a peninsula separating San Francisco Bay from the Pacific Ocean, San Francisco is a uniquely picturesque city, whose scenic attractions include the largest cultivated urban park in the country, Golden Gate Park. Its notoriously steep streets, traversed by the famous cable cars, are home to a remarkably diverse ethnic population, and the city's reputation for tolerance and diversity is also evident in its history as a mecca for the gay community. Known for sophisticated cultural innovation and experimentation, San Francisco was the gathering place of the "beat" generation in the 1950s and a focal point of the 1960s counterculture, a hotbed of political protest and the birthplace of the "San Francisco Sound." Still known for its cultural attractions, today the Bay Area is also famous for its concentration of cutting-edge high-technology firms, which have drawn even more new residents to this populous region. Situated on 40 hills of varying heights—among the highest are Telegraph Hill, Nob Hill, and Russian Hill—San Francisco is known for its steep streets, many of which ascend and descend hillsides, the result of insistence by early planners on imposing a strict grid pattern on the city rather than following the natural contours of the land. The two hills of Twin Peaks mark the geographic center of the city, which is divided into a number of distinct neighborhoods, many of whose streets are laid out in grid patterns. Bisecting much of the city from southwest to northeast is Market Street, whose southwestern-most portion is called Portola Drive. The Golden Gate Bridge runs northward across the Golden Gate straight; the San Francisco-Oakland Bay Bridge runs north-eastward across San Francisco Bay.*

## **Economy**

*Since the nineteenth century, San Francisco has been known as a financial center. Today it is home to leading banks (Wells Fargo) and insurance companies (TransAmerica, Fireman's Fund) and the site of the Pacific Stock Exchange, as well as branches of the Federal Reserve and United States Mint. Some 500 Fortune 500 companies are headquartered in the city, including Charles Schwab & Co., Bechtel Engineering, Chevron Oil, and Levi Strauss & Co.*

## **Fast Facts**

*Founded: 1776; Incorporated: 1850 Location: The Pacific coast of northern California, United States, North America*

*Motto: "Gold in Peace and Iron in War"*

*Population: 724,000 Area: 122 sq km (47 sq mi)*

*Flower: Dahlia*

*Telephone Area Codes: 415*

*Postal Codes: 94101-88*

## **Venue**

*San Francisco, USA*

## **Important Dates**

*Abstract submission opens: September 12, 2016*

*Registration opens: September 19, 2016*

*Early bird registration: October 31, 2016*

*On spot registration: August 03, 2017*
