

2nd World Congress on **Petrochemistry and Chemical Engineering**

Las Vegas, USA October 27-29, 2014

Dear Colleagues,

OMICS Group is delighted to welcome you to Las Vegas, USA for the prestigious **2nd World Congress on Petrochemistry and Chemical Engineering**. Petrochemistry-2014 will focus on *“Unlocking Energy through Innovation, Technology and Capability”*. We are confident that you will enjoy the Scientific Program of this upcoming Conference.

We look forward to see you at Las Vegas, USA.

With Regards,

Petrochemistry-2014 Organizing Committee

Program Announcement

Venue

Embassy Suites
4315 Swenson Street
Las Vegas, Nevada
United States 89119

Important Dates

Abstract submission opens: November 20, 2013
Registration opens: December 01, 2013
On spot registration: October 27, 2014

Accommodation

A large number of rooms have been reserved. Discounted room rates for Petrochemistry-2014 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by public transportation.

Exhibition and Sponsorship

An exhibition will be held concurrently with the Congress. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the fields of Petrochemistry and Chemical Engineering.

About Las Vegas

Las Vegas is the most populous city in Nevada, the seat of Clark County, and an internationally renowned major resort city for shopping and fine dining. Las Vegas, which bills itself as The Entertainment Capital of the World, is famous for the number of casino resorts and associated entertainment. A growing retirement and family city, it is the 28th most populous city in the United States.

The major attractions in Las Vegas are the casinos and the hotels. The most famous hotel casinos are located on Las Vegas Boulevard on the portion of that road known as the Las Vegas Strip. These larger casinos are located outside of the city. Many of these hotels are massive, providing thousands of rooms, with their large adjoining casino areas. There are many hotel casinos in the city's downtown area as well, which was the focal point of the city's gaming industry in its early days. Several large hotels and casinos are also located somewhat off the Strip, as well as in the county around the city.

Some of the most notable casinos involved in downtown gaming are on the Fremont Street Experience which was granted variances to allow bars to be closer together, similar to the Gaslamp Quarter of San Diego.
