

8<sup>th</sup> World Congress on

# Plant Genomics and Plant Science

August 20-21,  
2018  
Tokyo, Japan

Theme:  
Exploring the Current  
Frontiers in Plant Genomics  
and Plant Science

Dear Colleagues,

Conference Series is delighted to welcome you to Tokyo, Japan for the prestigious 8<sup>th</sup> World Congress on Plant Genomics and Plant Science.

Plant Genomics 2018 will focus on the theme "Exploring the Current Frontiers in Plant Genomics and Plant Science". We are confident that you will enjoy the Scientific Program of this upcoming Conference.

We look forward to see you at Tokyo, Japan.

With Regards,

Plant Genomics 2018 Operating Committee  
Conference Series Conferences

## Editorial Board Members of Supporting Journals:

Xiangyang Shi

Cornell University, USA

Fernando Villalta

Meharry Medical College, USA

Rodrigo A Valverde

Louisiana State University, USA

Yoshiro Ohara

Kanazawa Medical University, Japan

Leland Stanley Pierson III

University of Arizona, USA

Shigetou Namba

The University of Tokyo, Japan

Co Thoen

Iowa State University, USA

Chenping Xu

Rutgers University, USA

Konstantin Kanyuka

Department of Plant Pathology and  
Microbiology Centre, UK

Nicole Donofrio

University of Delaware, USA

Rebecca Creamer

New Mexico State University, USA

Florence V Dunkel

Montana State University, USA

Stephen K Herbert

University of Wyoming, USA

Steven Hutcheson

University of Maryland, USA

Li Huang

Montana State University  
USA

## Accommodation

A large number of rooms have been reserved. Discounted room rates for Plant Genomics 2018 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by Public transportation.

## Exhibition and Sponsorship

An Exhibition will be held concurrently with the Conference. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the fields of Plant Genomics and Agricultural Science Researchers.

## About Tokyo

Tokyo officially Tokyo Metropolis, is the capital of Japan and one of its 47 prefectures. The Greater Tokyo Area is the most populous metropolitan area in the world. It is the seat of the Emperor of Japan and the Japanese government. Tokyo is in the Kantō region on the southeastern side of the main island Honshu and includes the Izu Islands and Ogasawara Islands. Formerly known as Edo, it has been the de facto seat of government since 1603 when Shogun Tokugawa Ieyasu made the city his headquarters. It officially became the capital after Emperor Meiji moved his seat to the city from the old capital of Kyoto in 1868; at that time Edo was renamed Tokyo. Tokyo Metropolis was formed in 1943 from the merger of the former Tokyo Prefecture and the city of Tokyo. Tokyo is often referred to as a city, but is officially known and governed as a "metropolitan prefecture", which differs from and combines elements of a city and a prefecture, a characteristic unique to Tokyo. The Tokyo metropolitan government administers the 23 Special Wards of Tokyo (each governed as an individual city), which cover the area that was the City of Tokyo before it merged and became the metropolitan prefecture in 1943. The metropolitan government also administers 39 municipalities in the western part of the prefecture and the two outlying island chains. The population of the special wards is over 9 million people, with the total population of the prefecture exceeding 13 million. The prefecture is part of the world's most populous metropolitan area with upwards of 37.8 million people and the world's largest urban agglomeration economy. The city hosts 51 of the Fortune Global 500 companies, the highest number of any city in the world. Tokyo ranked third in the International Financial Centres Development IndexEdit. The city is also home to various television networks such as Fuji TV, Tokyo MX, TV Tokyo, TV Asahi, Nippon Television, NHK and the Tokyo Broadcasting System.

### Important Dates

Abstract submission opens: August 1, 2017

Registration opens: August 5, 2017

Early bird registration: November 13, 2017

On spot registration: August 20, 2018

### Venue

Tokyo, Japan

### Abstract Submission

<http://plantgenomics.conferenceseries.com/abstract-submission.php>

Note: All the relevant abstracts will be accepted and published in respective conference proceedings.

### Registration
