# Program Announcement

## **Accommodation**

A large number of rooms have been reserved. Discounted room rates for Polymer Science 2017 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by Public transportation.

## **Exhibition and Sponsorship**

An Exhibition will be held concurrently with the Congress. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the field of Polymer Science & Engineering.

## **About Chicago**

Chicago is the third-largest and most populous city in state of Illinois and the Midwestern United States with over 2.7 million residents. Chicago was incorporated as a city in 1837, near a portage between the Great Lakes and the Mississippi River watershed, and grew rapidly in the mid-nineteenth century. The city is an international hub for finance, commerce, industry, technology, telecommunications, and transportation. O'Hare International Airport is the second busiest airport in the world when measured by aircraft traffic, the region also has the largest number of U.S. highways and rail road freight. In 2012, Chicago was listed as an alpha global city by the Globalization and World Cities Research Network and ranked seventh in the world in the 2014 Global Cities Index. Chicago has the third largest gross metropolitan product in the United States—about \$630.3 billion according to 2014-2016 estimates. The city has one of the world's largest and most diversified economies with no single industry employing more than 14% of the workforce. Chicago's culture includes the visual arts, novels, film, theater, especially improvisational comedy, and music, particularly jazz, blues, soul, gospel and house music. It also has professional sports teams in each of the major professional leagues. Chicago has many nicknames, the best-known being the Windy City.
