Program Announcement

Accommodation

A large number of rooms have been reserved. Discounted room rates for Prosthodontics Congress 2017 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by Public transportation.

Exhibition and Sponsorship

An Exhibition will be held concurrently with the Congress. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the field of Aging Science, Geriatrics, Gerontology & Palliative Care.

About Toronto, Canada

Toronto is the most populous city in Canada, the provincial capital of Ontario, and the focal point of the Greater Toronto Area, the most crowded metropolitan zone in Canada. In the 2011 statistics, Toronto had a populace of 2,615,060, making it the fifth biggest city in North America. A populace gauge from a city report discharged in 2013 demonstrates the city is presently the fourth most crowded city in North America, after Mexico City, New York City, and Los Angeles. As a well established worldwide city, Toronto is a global focus of business, back, expressions, and culture, and generally perceived as a standout amongst the most multicultural and cosmopolitan urban areas on the planet.

Toronto is a leading international centre of business, finance, arts, and culture. Toronto is a prominent centre for music, theatre, motion picture production, and television production, and is home to the headquarters of Canada's major national broadcast networks and media outlets. Its varied cultural institutions, which include numerous museums and galleries, festivals and public events, entertainment districts, national historic sites, and sports activities, are key attractions to the over 25 million tourists that visit the city every year.

Toronto is well known for its sky scrapers and high-rise buildings, in particular the tallest free-standing structure in the Western Hemisphere, the CN Tower. Located in Southern Ontario on the northwestern shore of Lake Ontario, Toronto is situated on a broad sloping plateau intersected by a vast network of rivers, deep ravines, and urban forest. It anchors the Golden Horseshoe, a densely populated region surrounding the western end of Lake Ontario that is home to 8,686,923 people, or around 26% of the entire population of Canada.

The cosmopolitan and multicultural demographics of Toronto reflect its current and historical role as an important destination for immigrants to Canada. It is one of the world's most diverse cities, with about 50% of residents having been born outside of Canada, and over 200 distinct ethnic origins represented among its population. While English is the primary language spoken by the majority of Torontonians, there are over 160 different languages spoken in the city.

Venue

Toronto, Canada

Important Dates

Abstract submission opens: August 08, 2016

Registration opens: August 08, 2016

Early bird registration :November 30, 2016

On spot registration: May 01, 2017
