10th International Conference on Proteomics and Bioinformatics

Singapore

May 17-18, 2018

<http://www.proteomicsconference.com/asia-pacific//>

**Proteomics
2018**

Dear Colleagues,

Conference Series LLC is delighted to welcome you to Singapore for the prestigious **10th International Conference on Proteomics and Bioinformatics. Proteomics 2018** will focus on the theme **“Recent innovations and solutions adopted in the fields of Proteomics”**. We are confident that you will enjoy the Scientific Program of this upcoming Conference.

We look forward to see you at Singapore.

With Regards,
Proteomics 2018 Operating Committee
Conference Series LLC Conferences

Editorial Board Members of Supporting Journals:

Ayman M Noreddin

Hampton University School of
Pharmacy, USA

Ning Li

Division of Life Science HKUST, Hong Kong

David M Lubman

University of Michigan Medical
Center, USA

Fuchu He

Beijing Proteome Research Center,
China

Sandra Orchard

Wellcome Trust Genome Campus, UK

Ravi sirdeshmukh

Centre for Cellular and Molecular
Biology, India

Kazuyuki Nakamura

Yamaguchi University School of
Medicine Minami-kogushi, Japan

Sandra Rodriguez-Zas

University of Illinois, USA

Rob Krams

Imperial College of London, UK

Richard J Simpson

La Trobe University, Australia

Wolfram Weckwerth

University of Vienna, Austria

David Sheehan

University College Cork, Ireland

Terence C W Poon

The University of Macau, China

Yurong Lai

Groton Laboratory, Pfizer, Inc., USA

Marjan Gucek

National Heart, Lung, and Blood
Institute, USA

Denong Wang

SRI International Biosciences
Division, USA

Phan Van Chi

Vietnam Academy of Science &
Technology (VAST), Vietnam

Zefeng Wang

Institute for Computational Biology,
China

Fengfeng Zhou

Jilin University, PR China

Venue
Singapore

Proteomics
2018

Program Announcement

Accommodation

A large number of rooms have been reserved. Discounted room rates for Proteomics 2018 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by Public transportation.

Exhibition and Sponsorship

An Exhibition will be held concurrently with the Congress. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the area of Proteomics.

About Singapore

Singapore, officially the Republic of Singapore, is a sovereign city-state and island country in Southeast Asia. It lies off the southern tip of the Malay Peninsula and is 137 kilometres (85 mi) north of the equator. The country's territory consists of the lozenge-shaped main island, commonly referred to as Singapore Island in English and Pulau Ujong in Malay, and more than 60 significantly smaller islets. Singapore is separated from Peninsular Malaysia by the Straits of Johor to the north and from Indonesia's Riau Islands by the Singapore Strait to the south. The country is highly urbanized, and little of the original vegetation remains. The country's territory has consistently expanded through land reclamation. Singapore's progress over the past three decades has been remarkable, yet the island has not been overwhelmed by development. Visitors will discover a wealth of historical treasures from the past, in the beauty of older buildings, values and traditions that have survived in the face of profound social and geographical change. Singapore is both an island and a country, but perhaps its best description is that of city-state. Like the great city-states of the past, it offers civilization and order in the highest degree. Its combination of Western-style development and Eastern-style calm seems to present the best of both hemispheres: It's a modern metropolis where you feel safe walking the streets, and it's an Asian business center that's a model of efficiency. Singapore is also a multicultural city, and close to one-quarter of its population are expatriates or foreign workers from all over the world. Known for its desire to become the technology hub of Asia, Singapore is the most wired country in the region.

Venue
