Energy
2017**

Program Announcement

Accommodation

A large number of rooms have been reserved. Discounted room rates for Renewable Energy 2017 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by public transportation.

Exhibition and Sponsorship

An Exhibition will be held concurrently with the Conference. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the fields of Renewable Energy.

About Vancouver

Vancouver is a dynamic, multicultural city with a cosmopolitan flair set in a spectacular natural environment. It has become the latest city to commit to running on 100% renewable energy. The city of 600,000 on Canada's west coast aims to use only renewable energy sources for electricity, and also for heating and cooling and transportation. It is surrounded with many universities both private and government, with well behaved management. Vancouver offers a world-class experience in all spheres and excellent value for your money.

Vancouver is well known as a civic centre surrounded by nature, making tourism its second-largest industry. Major film production studios in Vancouver have turned Greater Vancouver and nearby areas into one of the largest film production centres in North America earning it the film industry byname, Hollywood North. Vancouver is specified as one of the top five worldwide cities for affordability and quality of life, and the business analyst acknowledged it as the first city to rank among the top-ten of the world's most liveable cities for five successive years. Vancouver has hosted many international events and conferences, including the Commonwealth Games and 1954 British Empire, UN Habitat I, Expo 86, and Fire Games in 1989 and 2009; and Paralympics and the 2010 Winter Olympics which were held in Vancouver and Whistler, (a resort community 125 km (78 mi) north of the city). In 2014, following 30 years in California, the annual TED conference made Vancouver its home. Several matches of the 2015 FIFA Women's World Cup were played in Vancouver.

Venue

Vancouver, Canada.

Important Dates

Abstract Submission Opens: August 24, 2016

Online Registration Opens: August 24, 2016
