

9th International Conference on

STRUCTURAL BIOLOGY

September 18-19, 2017 Zurich, Switzerland

Dear Colleagues,

Conference Series LLC is delighted to welcome you to Zurich, Switzerland for the Prestigious **9th International Conference on Structural Biology**. **Structural Biology 2017** revolves around the theme “*Let’s Gear the Future with Structural Biology*”. We are confident that you will enjoy the Scientific Program of this upcoming Conference.

We look forward to see you at Zurich, Switzerland.

With Regards,
Structural Biology 2017 Operating Committee
Conference Series LLC Conferences

Editorial Board Members of Supporting Journals:

Soldano Ferrone

University of Pittsburgh
USA

Ning Li

Division of Life Science
HKUST, Hong Kong

Sandra Orchard

Wellcome Trust Genome Campus, UK

Kazuyuki Nakamura

Yamaguchi University School of Medicine
Minami-kogushi, Japan

Richard J. Simpson

La Trobe University, Australia

A. Heidari

California South University, Irvine, USA

Tulio Chavez-Gil

Coppin State University, USA

Malgorzata Holynska

Philipps University Marburg, Germany

Michele Saviano

Institute of Crystallography, Italy

Conference Secretariat

2360 Corporate Circle, Suite 400 Henderson, NV 89074-7722, USA
Ph: +1-650-268-9744, Fax: +1-650-618-1414, Toll free: +1-800-216-6499
Email: structuralbiology@conferenceseries.net

Program Announcement

Venue

Zurich, Switzerland

Important Dates

Abstract submission opens: September 06, 2016

Registration opens: September 06, 2016

Early bird registration: December 31, 2016

On spot registration: September 18, 2017

Accommodation

A large number of rooms have been reserved. Discounted room rates for Structural Biology 2017 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by public transportation.

Exhibition and Sponsorship

An Exhibition will be held concurrently with the Congress. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the fields of Structural Biology and Biophysics.

About Zurich

Zurich is a beautiful lakefront banking city with the splendid Limmat river running through it, exquisite views of the Alps, terrific walking streets, a medieval quarter, and the Niederdorf, a section of town where things start heating up past midnight. It's typically Swiss in terms of broad decorum and first-rate shopping, a pinnacle in hotel standards, and has a range of upscale restaurants offering sophisticated fare and the country's best wines.

The city bows to tradition and keeps intact what's there, but adds to the luster of its glorious past. Similar to New York City in that Zurich is not the governmental seat of power (that's Bern), it is the place where change happens first in Switzerland. It's ironic given that it's also the banking capital, but art needs finance, and it's no coincidence that James Joyce lived here, and that Dada and Surrealism thrived in the city, too. When you visit Zurich these days, you'll find wonderful art galleries, shops, museums, churches, restaurants, and cafes that seamlessly blend the city's many facets.

Though it's famous for fancy chocolates, high-end watches, and its corporate industry, Zurich has plenty of affordable and cool offerings, too, from its blossoming boutique hotel scene, glut of free cultural landmarks, and versatile shopping options.
