Accommodation
A large number of rooms have been reserved. Discounted room rates for Vaccines and Immunization 2018 participants are proposed. Only reservations made through the Conference will benefit these rates. The Congress Center can be easily reached by public transportation.

Exhibitors and Sponsors
An Exhibition will be held concurrently with the Congress. The coffee break and lunch areas will be located adjacent to the booths. Thanks to exhibitors from all over the world, attendees will have a complete overview of new findings in the fields of 29th International conference on Vaccines and Immunization.

About London
London is the capital and most populous city of England and the United Kingdom. London is a leading global city, in the arts, commerce, education, entertainment, fashion, finance, healthcare, media, professional services, research and development, tourism, and transport. It is one of the world’s leading financial centres and has the fifth- or sixth-largest metropolitan area GDP in the world.

London is a world cultural capital. It is the world’s most-visited city as measured by international arrivals and has the world’s largest city airport system measured by passenger traffic. London’s universities form the largest concentration of higher education institutes in Europe, and a 2014 report placed it first in the world university rankings. According to the report London also ranks first in the world in software, multimedia development and design, and shares first position in technology readiness.

London has the greatest concentration of top class universities in the world and its international student population of around 110,000 is larger than any other city in the world. London is home to five major medical schools – Barts and The London School of Medicine and Dentistry, King’s College London School of Medicine (the largest medical school in Europe), Imperial College School of Medicine, UCL Medical School and St George’s, University of London – and has a large number of affiliated teaching hospitals. It is also a major centre for biomedical research, and three of the UK’s eight academic health science centres are based in the city – Imperial College Healthcare, King’s Health Partners and UCL Partners (the largest such centre in Europe).
