Abstract Title: 2gether

O.azulay

[1] *Azulay, Oron (M.A Music Therapy University of Haifa, IS)*

Abstract (not more than 300 words)

2gether is a innovative therapeutic app which helps caregivers of people living with Alzheimer's reconnect with their loved ones - turning personalised music into therapy.

2gether is a combination of a method and technology. It enables caregivers to find personalised music, capture memories in real time and provides assistance given by music therapists 24 hours a day.

Keywords—Alzheimer's, *music, connection, memories, therapy,*

Professional Biography (100-150 words)

Oron azulay completed his M.A in Music therapy at Haifa University at the age of 30. He has a B.A in psychology from Tel Hai college in Israel. He is the project manager of 2gether, a therapeutic app designed for caregivers of people with Alzheimer's. He conducts lectures in the field of music therapy for elders, music as a form of human connection and music for people living with Alzheimer's disease. Oron has six years experience working with people living with dementia and Alzheimer's.
