

Title: Rhinoplasty Tip Surgery on Anatomic Models

Name: Janmaris Marin Fermin

This workshop consists on the presentation of 15 different surgical techniques in the approach of the nasal tip: strut graft, shield graft, peck grafts, dome beveling: dome plication, retrodomal suture, cephalic interdomal suture, etc.
The workshop begins with a video of the surgical technique, followed by the explanation, and then a practice on the surgical models designed by Dr. Hector Marin Mendez that recreates the nasal tip structures: alar cartilages and the caudal septal border.
