Abstract (300 words)

The study attempts to cognitively-return and hypothetical-advance a frame within the near-stage-efforts related to the humankind's tensions on *'Brain/Heart–Mind–Conscience–Consciousness' complex facets* related to the progress within ***Neuroscience and Cognitive Science***. There is the poly-pointing:

* Systemhood/Individualhood / *(Hypothetical) Reality; Models; Ideal(s)* / *Heritage, Challenge, Perspectives within the* ***Natural-Artificial Dualism***

* Data/Information/Knowledge / *within and beyond probabilities, fuzziness,* ***subtleness /*** 'PRIMAL' *subtle returning* ***cycle(rhythm, labyrinth)***

* Virtual Reality / Real Virtuality // '*Input–Information-Knowledge-Inteligence–Experience–Wisdom–Happiness/Alienation–Output'* - forever 'DUAL' returning to 'PRIMAL' ***cycle***

* *'CognitionI–Meta-Cognition–Trans-Cognition–Pre-Cognition–CognitionI+1'* background 'TERTIAL' ***returning cycle***

* (*(Meta-)*Hypothetical) (*Virtual*)Life Reality; Models/Ideal(s) / *Novel-Outlook-Cognition-Progressive-Action-Dimensions*:

1. Scientific and pedagogical research and implementation efforts (SPRIE) to the comprehension of the "(Non-)Systemic Knowledge/Frame" demands into Artificial Intelligence (AI), Artificial Life (AL) near future (NF).

2. SPRIE to the comprehension of the "AI and AL" (AIaAL) demands into NF (DINF):

Within a plausible ***Moral Market: Creative (e-)Partnership*** *towards* ***Geo/Eco/Bio-Economy and Digital Business Geo/Eco/Bio-Systems*** *– related to the „initial" stage* **„Cosmic realm (Earthly-Ecosystem (Social Metasystem (Economic_Financial_Bank System (Industrial System (Technological System (Innovation and Financial Stock Joint))))))"**.

3. SPRIE to the comprehension of the AIaAL DINF:

Within a plausible ***Smart Cities/Rural Smart Engagements*** *towards* ***Ambient Intelligence/Next stages Bio-Computing/Quantum--Computing***.

4. SPRIE to the comprehension of the AIaAL DINF:

Within a plausible ***(Ontologies/Semantic WEB/Cloud Computing (e-)phenomenon*** *and related* ***praxis*** *towards* ***Neuro-Computing /Neuro-{Linguistics/Management/Marketing}/Neuro-Imaging/Psycho-Meta-Trans-Pre-Linguistics.***

5. SPRIE to the comprehension of the AIaAL DINF stances of the ***Internet, Social Networks, Network of Social Networks, Machine Learning, Data Mining, and WWW***.

* *Human beings, Angels, 'Frankenstein', Robots, Cyborgs, Symbionts* - ***'Passive/Indifferent/(Re)Active', Collective, (Pro/Cons)Social, Ambient, Interactive, Societal Intelligence****, and related* ***(e-)Life/(e-)Lives*** *– within and beyond* ***time-space continuum***

Are we ***within or beyond*** *the initial steps of a transit from* **Information/Knowkedge Society** *toward* **'Brain/Heart–Mind–Conscience–Consciousness' Society** – and towards ***Consciousness Society / or else?***

Keywords—*Systemhood/Individualhood, Natural-Artificial Dualism, 'Brain/Heart–Mind–Conscience–Consciousness' Society, Consciousness Society / or else?*

Any Comments:

The above title of the study and its related abstract represent my intellectual presumption for the entireness of your scientific event – as all my three positions, please see up of this file, are honorary positions, then it would be difficult to come to Paris, but I am open to any (e-)stance presence or else.
