# Effective & Safe Treatment of Poly Cystic Ovarian Syndrome (PCOS) through topical use of plant extract oil blends

Amul S Bahl, M.Tech Indian Institute of Technology Delhi
Director Research & Development- God's Own Store L.L.P., New Delhi India

**Abstract**

Plant Nanocellopathy, helps provide an alternative treatment for PCOS (Poly Cystic Ovarian Syndrome). Safer, easier to use, cheaper and helps treat PCOS faster with no side effects.

Researched and developed over 25 years, Plant Nanocellopathy has proven to be highly effective, safe and gives quick results even in chronic conditions.
After having treated numerous patients, clearly, this seems to be a much better option in comparison to the alternatives that are currently available. The same have been validated in a scientific, unbiased manner through double blind human clinical trials that are representative, free of bias, independent, placebo controlled and conducted by expert and qualified allopathic healthcare professionals.

Double Blind Human Clinical Trials by a 3rd party independent Clinical Research Organization have already been conducted under the auspices of the Clinical Trial Registry of India and results are proven effective and safe (Clinical reports/data available- CTRI/2018/04/013334).

The independent clinical trial showed significant improvement in the key parameters of PCOS

A. Menstrual Cycle:
   i. Irregularity
   ii. Pain
   iii. Duration
   iv. Quantity of Bleeding

B. Hirsutism (facial hair impacting the appearance)
C. Ovarian Volume
D. Follicular Cysts

All the above key factors of PCOS where impacted successfully by the use of invented oils leading to safe and effective treatment of PCOS.

Amul S Bahl is a 10 pointer M.Tech from Indian Institute of Technology, New Delhi. Over 25 years of Research & Development on Plant Nanocellopathy has led to development of topical use solutions for safe and effective treatment protocols. Treatment of PCOS is one such key protocol. Amul is an introvert who loves to cook and read. He is an author of 5 books on Discovery of Self and living simpler lives.
