Stroke is a condition in which a blood supply is blocked to the brain cells and causes death. It is of two types namely, Ischemic stroke and hemorrhagic stroke. Ischemic stroke is caused by lack of blood flow and Hemorrhagic stroke is caused by bleeding directly into space of brain membranes. High blood pressure is the main risk factor for stroke and some other risk factors are tobacco smoking, obesity, high cholesterol level in blood and diabetes mellitus. It can be diagnosed with the help of Medical Imaging Techniques like CT, MRI along with physical examination. In 2015, 42.4 million people had stroke in all over the world. A stroke with no outward symptoms is called Silent Stroke, and it is second most frequent cause of death. 25% men suffer stroke than women and 60% of death from stroke occurs in women.

Rome, Italian Roma, historic city and capital of Roma provincia (province), of Lazio regione (region), and of the country of Italy. Rome is located in the central portion of the Italian peninsula, on the Tiber River about 15 miles (24 km) inland from the Tyrrhenian Sea. Once the capital of an ancient republic and empire whose armies and polity defined the Western world in antiquity and left seemingly indelible imprints thereafter, the spiritual and physical seat of the Roman Catholic Church, and the site of major pinnacles of artistic and intellectual achievement, Rome is the Eternal City, remaining today a political capital, a religious centre, and a memorial to the creative imagination of the past.
