15TH WORLD CONGRESS ON

HEMATOLOGY AND ONCOLOGY

NOVEMBER 09-11, 2023 | SINGAPORE

https://hematology.cmesociety.com/

INVITAITON

HEMATOLOGY 2023

The organizing committee for the Hematology Congress 2023 is pleased to welcome you to participate in the "15th World Congress on Hematology and Oncology," which will be held on November 9–11, 2023, in Singapore.

This conference is considered to be the most significant and perfect platform for all researchers, hematologists, oncologists, physicians, surgeons, nurses, scientists, business experts, and students who are all interested in the field of hematology.

This conference aims to provide a unique theme: "Integrating New Ideas and Analyzing Innovative Hematology Concepts."

The conference will be organized around several keynote addresses, symposiums, workshops, oral presentations, and posters where attendees will have the chance to interact with global leaders in academic and corporate diagnostic imaging and therapeutic research communities and gain knowledge from experts. The scientific conference offers a wide range of members of the hematology community an outstanding opportunity to address the issues surrounding blood disorders.

Researchers from different institutions will exchange their ideas and discuss topics that include patient management and care, developing hematology techniques, and advancements in the field to diagnose and treat hematologic disorders, among many other things.

We anticipate Hematology 2023 to be a very dynamic and welcoming organization where you will join us and discover it to be an exciting time for future developments.

Regards,
Olivia Martin | Program Manager

MARKET ANALYSIS

According to the most recent Reports and Data report, the global hematology diagnostics market is expected to reach USD 5,758.6 million in 2030, with revenue CAGR of 4.9% during the forecast period. Demand for hematological diagnostics is expected to rise as healthcare providers and patients become more aware of blood disorders, driving market revenue growth over the forecast period.

The rising prevalence of blood cancers such as leukemia, as well as rising demand for early diagnosis and treatment monitoring, are major factors driving market revenue growth.

The Asia-Pacific market is projected to increase at the rapid speed in the worldwide market during the forecast period. Rapid population growth, rising prevalence of chronic diseases such as cancer and hematological diseases, particularly in developing countries such as India and China, and improved healthcare infrastructure are some of the major factors driving revenue growth in the Asia-Pacific market. Each year, over 1.1 million cancer cases are recorded in India, according to the Central Institute of Preventing Cancer and Experiments. As a result, the region's high cancer prevalence is expected to drive up demand for hematology diagnostics in Asia-Pacific.

Abbott Laboratories, Beckman Coulter, Inc., Ortho Clinical Diagnostics, Siemens Healthcare, Biotech Corporation, Boule Diagnostics, F. Hoffmann-La Roche Ltd., Mindray Medical International Limited, Drew Scientific Inc., Bio-Rad Laboratories Inc., HemoCue AB, Horiba Ltd., EKF Diagnostics, and Nihon Kohden Corporation are among the key market companies that operate in the international market. To enhance their market position and expand revenue shares, major market players are concentrating on different tactics such as new product launches, capital investments, and partnerships.

ABOUT VENUE

Singapore is a small Southeast Asian island city-state. It is located at the southern end of the Malay Peninsula, and is separated from Malaysia by the Straits of Johor to the north. It has a total land area of about 728.3 square kilometers and a population of over 5.6 million people, making it one of the most densely populated countries in the world.

Singapore is known for its vibrant economy, which is driven by industries such as electronics manufacturing, financial services, and tourism. It has one of the busiest ports in the world and is a major hub for shipping and air transportation. Singapore is also known for its clean and green environment, as well as its strict laws and regulations that are designed to maintain social order and public safety.

The country is home to a diverse mix of cultures, with Chinese, Malay, Indian, and Western influences all contributing to its unique identity. It is also famous for its food, which is a fusion of different cuisines and includes dishes such as laksa, chicken rice, and chili crab.
