ABOUT US

Since many years Pulsus has also been very instrumental to provide an invaluable channel for scientists and researchers to exchange ideas and research by creating a forum for discussing the possibilities of future collaborations between universities, institutions, research bodies and organizations from different countries through international conferences and meetings.

Pulsus Group is an internationally renowned medical peer-review publisher and conferences organizer established in the year 1984 publishes and hosts the work of researchers in a manner that exemplifies the highest standards in research integrity.

With a legacy of 30 years of excellence in Medical Publishing we are endorsed by various societies like International Academy of Cardiovascular Sciences, International Society of Addiction Medicine, European Biotechnology Thematic Network Association, World Federation of Paediatrics Intensive and Critical Care Societies, World Association of Medical Sciences, International Society for Ceramics in Medicine, Thalassaemia International Federation and World Association of Integrated Medicine to nurture the research and development for the beneficence of society.

MARKET ANALYSIS

Osteoporosis is a disease which leads to weak and fragile bones due to low bone mass and loss of bone tissue. Osteoporosis means “Porous bone”. Healthy bone is similar as honeycomb. Osteoporosis patients have much larger holes and spaces in bone. People who have Osteoporosis have a high risk of fracture and adequate intake of calcium in early life stage makes bone stronger. Arthritis is an informal way of referring to joint pain or joint disease. There are more than 100 different types of arthritis. It is most common in women and occurs more frequently in people of older age groups. A majority of women and old aged people have Osteoporosis and Arthritis. Arthritis is an informal way of referring to joint pain or joint disease. There are more than 100 different types of arthritis. It is most common in women and occurs more frequently in people of older age groups. Arthritis is the No. 1 causes of disability in nation. 1 in 4 people over age 18 & 1 in 250 children have arthritis. By the year 2040 more than 78 million people expected to have arthritis. Musculoskeletal Disorders or MSDs are disorders that affect the human body’s movement or Musculoskeletal system. MSDs are preventable.

TARGET AUDIENCE

- Orthopedics Surgeons
- Trauma Surgeons
- Rheumatologists
- Orthopedics Students, Scientists
- Trauma Students, Scientists
- Rheumatology
- Students, Scientists
- Orthopedics Faculty
- Trauma Researchers
- General Surgeons
- Orthopedics Researchers
- Rheumatology Researchers
- Rheumatology Faculty
- Medical Colleges
- Rheumatology
- Associations and Societies

ABOUT VENUE

Paris is France's capital and one of the most famous cities in the world. It is situated along the banks of the Seine River in the country's north-central region. Paris is well-known for its extensive history, stunning architecture, art, culture, fashion, and cuisine. The Eiffel Tower, Notre-Dame Cathedral, the Louvre Museum, the Arc de Triomphe, and the Champs-Élysées are among Paris' most recognizable landmarks. The Luxembourg Gardens and the Tuileries Gardens are two of the city's most beautiful parks and gardens.

Many world-renowned museums and art galleries can be found in Paris, including the Musée d'Orsay, the Centre Pompidou, and the Picasso Museum. It is also known for its lively nightlife, with many bars, clubs, and restaurants staying open late. Overall, Paris is a lovely and enchanting city that provides visitors with a unique blend of history, culture, and natural beauty.

Abstract submission opens: March16, 2023 | **Registration opens:** March16, 2023
